THE AIM OF SYMPOSIUM `2014

The aim of this Symposium is to point out all the possibilities of the materials and achievements in metallurgy.

TOPICS OF THE SYMPOSIUM ARE:

Materials

- New Materials
- Refractory Materials
- The Development
- Applications
- Physical Metallurgy

Metallurgy

- Process Metallurgy and Foundry
- Plastic Processing of Metals and Alloys
- Technologies
- Energetics
- Ecology in Metallurgy
- Quality Assurance and Quality Management

Here are the most important details on the 10 th Symposium of Croatian Metallurgical Society

ORGANIZER CROATIAN METALLURGICAL SOCIETY (CMS)

PATRONS

- Plenary lectures of invited scientists will be held.
- Authors are required to prepare posters (title, abstract, results, conclusion) on a 100x100 cm paper, to be paste on a board).

Eventually let us point out:

The reception of 11 th Symposium of Croatian Metallurgists by international associations has shown that the Symposium has become a traditional place for the gathering of the world's experts and scientists of various profiles: metallurgists, physicists, chemists, mechanical engineers, and technicians who can and want to contribute so that metallurgy in Croatia receives the same attention a sit does in the world.
