

CROINTERVENT 2016

VII. NACIONALNI SASTANAK O KARDIOVASKULARnim INTERVENCIJAMA S MEĐUNARODNIM SUDJELOVANJEM

7th NATIONAL MEETING ON INTERVENTIONAL CARDIOLOGY

Poštovani kolegice i kolege,

Radna skupina za invazivnu i intervencijsku kardiologiju Hrvatskoga kardiološkog društva organizira 7. Nacionalni kongres intervencijske kardiologije s međunarodnim sudjelovanjem – CROINTERVENT 2016., koji će se održati od 10. do 12. ožujka 2016. u Zagrebu.

Prvi CROINTERVENT održan je 2004. godine. Od svojeg početka taj kongres kontinuirano raste, ne samo po broju sudionika i održanih prezentacija već i po važnosti koju dobiva među kardiovaskularnim skupovima. Svi prethodnih šest kongresa obilježili su eminentni strani i domaći predavači te iznimno motivirani i zainteresirani sudionici.

CROINTERVENT 2016. namijenjen je ne samo kardiologima i specijalizantima kardiologije nego i liječnicima drugih specijalnosti te osobama koje su profesionalno vezane uz ovaj dinamičan i propulzivan segment moderne medicine.

Cilj je Kongresa, osim prikaza moderne kliničke prakse u intervencijskoj kardiologiji, raspraviti o nedoumicanima i problemima koje susrećemo u svojem radu, a oko kojih još ne postoji suglasje.

U programu Kongresa bit će zastupljeni pozvani predavači svojim predavanjima, te oralne i moderirane posterske prezentacije.

Kao i do sada, znatan dio Kongresa posvetit ćemo praktičnim aspektima intervencijske kardiologije, kako putem izravnih prijenosa zahvata uz interakciju s operatorima, tako i prikazivanjem već izvedenih intervencija s analizom i komentarima.

Ovo, posebno izdanje službenog časopisa Hrvatskoga kardiološkog društva – *Cardiologia Croatica*, sastoji se od odabranih originalnih radova naših sudionika u obliku sažetaka, koji će biti predstavljeni na kongresu kao usmena izlaganja i moderirani posteri.

Srdačno Vaš,

Doc. dr. sc. / Assistant Professor **Eduard Margetić**

Predsjednik Radne skupine za invazivnu i intervencijsku kardiologiju /
President, Working Group for Invasive and Interventional Cardiology
Hrvatskoga kardiološkog društva / Croatian Cardiac Society

Dear colleagues,

The Working Group on Invasive and Interventional Cardiology of the Croatian Cardiac Society is organizing the 7th National Congress of interventional cardiology with international participation – CROINTERVENT 2016, which will be held on March 10-12, 2016 in Zagreb.

CROINTERVENT started in 2004. From that point it has grown steadily, not only in size but also in its importance among cardiovascular conferences. All the previous six meetings attracted a prominent International and Domestic Faculty and an interactive audience.

CROINTERVENT 2016 is designed not only for cardiologists and cardiology fellows, but also for physicians of other specialties and people who are professionally associated with this dynamic and propulsive segment of modern medicine.

The aim of the Congress, besides the display of modern clinical practice in interventional cardiology, is to discuss concerns and problems that we encounter in our daily practice, especially those still without consensus among the interventional cardiologists.

The congress program will consist of invited lectures and oral and moderated poster presentations.

It is important to note that a significant part of the congress will be dedicated to the practical aspects of interventional cardiology, both through transmitted "live cases" and presentation of already performed interventions with analysis and comments.

This special issue of *Cardiologia Croatica* – the official journal of the Croatian Cardiac Society, consists of selected original contributions from our participants in the form of abstracts, which will be presented at the meeting in the form of oral presentations and moderated posters.

Sincerely yours,
