Instructions to Authors

General

When preparing a manuscript, please strictly comply with the journal guidelines, as well as with the ethic standards of scientific publishing.

Manuscripts should be written in English. If English is not your native language, please arrange for the text to be reviewed by a professional editing service. Maintain a consistent style with regard to spelling (either UK or US English), punctuation, nomenclature, symbols, etc. The Editorial Board retains the right to reject without comment or explanation manuscripts that are not prepared in accordance with these guidelines.

Manuscript Structure

• Title – should be concise and unambiguous, and must reflect the contents of the article.
• List of authors – should include all persons who contributed substantially to study planning, experimental work, data collection or interpretation of results and wrote or critically revised the manuscript and approved its final version. It is mandatory to enter full names (first and last), followed by the present institutional addresses, as well as the e-mail addresses (institutional/official, not private).
• The authors’ names and addresses should not appear in the body of the manuscript, to preserve anonymity and ensure a blind reviewing process.
• Abstract – at the head of each manuscript there should be a summary of up to 200 words. The summary should be self-contained and understandable by a non-expert reader.
• List of keywords (3–6 items). Avoid too general and/or descriptive terms.
• It is mandatory to cite the DOI identifier for each reference.
• Crossref Similarity Check plagiarism detection software. Manuscripts will be checked on (self-)plagiarism using the Crossref Similarity Check plagiarism detection software.

Technical Requirements for Text Processing

• The pages should be numbered consecutively.
• Manuscript should be written using a 12pt Times New Roman font with single line spacing, their length being between 6,000 and 8,000 words, which should roughly correspond to a 12-16 CIT pages of length.
• Sections and subsections should be clearly distinguished with a three-level structure at most. No deeper levels of structure are allowed. If you need to further substructure your text, use paragraph titles instead.
• Items in enumeration lists should be marked consecutively.
• Mathematical expressions and Greek or other symbols should be written clearly with ample spacing.
• When the manuscript is accepted, the authors will be required to electronically submit both source files of the paper in MSWord and TeX/LaTeX format, and the respective Acrobat PDF format. Each figure should also be supplied in two separate files, one in the figure’s original graphical format and another in Postscript (.PS or .EPS) or .TIFF format.

Manuscript Submission

Manuscripts should be submitted electronically via the Journal’s management system OJS. Instructions for registering and submitting a manuscript can be found at http://cit.fer.hr/index.php/CIT/about/submissions#onlineSubmissions. Manuscripts will be checked on (self-)plagiarism using the Crossref Similarity Check plagiarism detection software.
