

Instructions for authors

The authors are requested to observe carefully the following rules before submitting a manuscript. This will facilitate co-operation between the editors and authors and help to minimise the publication period. Manuscripts that differ from the specifications and do not comply with the formal requirements will be returned to the authors for correction before review.

General

The "Drvena industrija" ("Wood Industry") journal publishes original scientific and review papers, short notes, professional papers, conference papers, reports, professional information, bibliographical and survey articles and general notes relating to the forestry exploitation, biology, chemistry, physics and technology of wood, pulp and paper and wood components, including production, management and marketing aspects in the woodworking industry.

Submission of a manuscript implies that the work has not been submitted for publication elsewhere or published before (except in the form of an abstract or as part of a published lecture, review or thesis, in which case that must be stated in a footnote); that the publication is approved by all co-authors (if any) and by the authorities of the institution where the work has been carried out. When the manuscript is accepted for publication the authors agree to the transfer of the copyright to the publisher and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

The scientific and technical papers should be published either in Croatian, with extended summary in English or German, or in English or German with extended summary in Croatian. The titles and all the relevant results should be presented bilingually. Other articles are generally published in Croatian. The Editor's Office provides the translation into Croatian for foreign authors.

The scientific and professional papers are subject to a thorough review by at least two selected referees. The Editorial Board makes the choice of reviewers, as well as the decision about the accepting of the paper and its classification - based on reviewers' recommendations - is made by Editorial Board.

All contributions are subject to linguistic revision. The editors will require authors to modify the text in the light of the recommendations made by reviewers and linguistic advisers. The editors reserve the right to suggest abbreviations and text improvements.

Authors are fully responsible for the contents of their contribution. The Editors assume that the author has obtained the permission for the reproduction of portions of text published elsewhere, and that the publication of the paper in question does not infringe upon any individual or corporate rights. Papers must report on true scientific or technical progress. Authors are responsible for the terminological and metrological consistency of their contribution.

The contributions are to be submitted in duplicate printout and an electronic version to the following address:

Manuscripts

Submitted manuscripts must consist of no more than 15 single-sided DIN A4 sheets of 30 double-spaced lines, including tables, figures and references, appendices and other supplements. It is advised that longer manuscripts be divided into two or more continuing series.

Manuscripts should be written in MS Word, in normal style. Electronic version on diskettes, CD or sent by e-mail will be accepted with the printout.

The first page of the typescript should present full title, name(s) of author(s) with professional affiliation (institution, city and state), abstract with keywords in the main language of the paper (approx. 1/2 sheet DIN A4, concise in abstract form).

The succeeding pages of scientific and professional papers should present a title and extended summary with keywords in a language other than the main language of the paper (e.g. for a paper written in English or German, the title, extended summary and keywords should be presented in Croatian, and vice versa). The extended summary (approx. 1 1/2 sheet DIN A4), along with the results, should enable the reader who is unfamiliar with the language of the main text, to completely understand the intentions, basic experimental procedure, results with essential interpretation and conclusions of the author.

The last page should provide the full titles, posts and address(es) of (all) the author(s) with indication as to whom of the authors are editors to contact.

Scientific and professional papers must be precise and concise and avoid lengthy introductions. The main chapters should be characterised by appropriate headings. Footnotes should be placed at the bottom of the same page and consecutively numbered. Those relating to the title should be marked by an asterisk, others by superscript arabic numerals.

Footnotes relating to the tables should be printed below the table and marked by small letters in alphabetical order. Latin names to be printed in italic should be underlined.

Introduction should define the problem and if possible the frame of existing knowledge, to ensure that readers not working in that particular field are able to understand author's intentions.

Materials and methods should be as precise as possible to enable other scientists to repeat the work. Main experimental data should be presented bilingually.

Results: only material pertinent to the subject can be included. The metric system must be used. SI units are recommended. Rarely used physical values, symbols and units should be explained at their first appearance in the text. Formulas should be written by using Equation Editor in MS Word. Units are written in normal (upright) letters, physical symbols and factors are written in italics. Formulas are consecutively numbered with arabic numerals in parenthesis (e.g. (1)) at the end of the line.

The number of figures must be limited to those absolutely necessary for clarification of the text. The same information must not be presented in both a table and a figure. Figures and tables should be numbered separately with arabic numerals, and should be referred to in the text with clear remarks ("Table 1" or "Figure 1"). The position of the figure or a table in the text should be indicated on the margin. Each table and figure should be presented on a single separate sheet. Their titles should be typed on a separate sheet in consecutive order. Captions, headings, legends and all the other text in figures and tables should be written in both Croatian and in English or German.

Figures and tables should be complete and readily understandable without reference to the text. Do not write the captions to figures and drawings in block letters. Line drawings should, if possible conform to the style of the journal and be printed on the laser printer. Original drawings or photographic copies should be submitted with the manuscript. Letters and numbers must be sufficiently large to be readily legible after reduction of the width of a figure/table to either 160 mm or 75 mm. Photographs should be black/white. Colour photographs will be printed only on special request; the author will be charged for multicolour printing. Photographs and photomicrographs must be printed on highgloss paper and be rich in contrast. Photomicrographs should have a mark indicating magnification, preferably in micrometers. Magnification can be additionally indicated at the end of the figure title (e.g. Mag. 7500:1). Each illustration should carry on its reverse side its number and indication of its orientation, along with the name of (principal) author and a shortened title of the article. Original illustrations will not be returned to the author.

Discussion and conclusion may, if desired, be combined into one chapter. This should interpret results in relation of the problem as outlined in the introduction and of related observations by the author(s) or others. Avoid repeating the data already presented in the "Results" chapter. Implications for further studies or application may be discussed. A conclusion should be added if results and discussion are combined.

Acknowledgements are presented at the end of manuscript.

Relevant **literature** must be cited in the text according to the name - year (Harvard-) system. In addition, the bibliography must be listed at the end of the text in alphabetical order of the author's names, together with the title and full quotation of the bibliographical reference. Names of journals should be abbreviated according to Biological Abstracts, Chemical Abstracts, Forestry Abstracts or Forest Products Abstracts. The list of references should be selective, except in review papers. Examples of the quotation:

Journal articles: Author, initial(s) of the first name, year: Title. Abbreviated journal name, volume (ev. issue): pages (from - to). Example:

Porter, A.W. 1964: *On the mechanics of fracture in wood*. *For. Prod. J.* 14 (8): 325 - 331.

Books: Author, first name(s), year: Title. (ev. editor): edition, (ev. volume), place of edition, publisher (ev. pages from - to). Examples:

Kollmann, F. 1951: *Technologie des Holzes und der Holzerzeugnisse*. 2nd edition, Vol. 1. Berlin, Göttingen, Heidelberg: Springer

Wilson, J.W.; Wellwood, R.W. 1965: *Intra-increment chemical properties of certain western Canadian coniferous species*. In: W.A. Côte, Jr. (Ed.): *Cellular Ultrastructure of Woody Plants*. Syracuse, N.Y., Syracuse Univ. Press, pp. 551-559.

Other publications (brochures, reports etc.):

Müller, D. 1977: *Beitrag zur Klassifizierung asiatischer Baumarten*. *Mitteilung der Bundesforschungsanstalt für Forst- und Holzwirtschaft Hamburg*, Nr. 98. Hamburg: M. Wiederbusch.

Proofs and journal copies

Galley proofs are sent to the author in duplicate. One copy should be carefully corrected, using internationally accepted symbols. Corrections should be limited to printing errors; amendments to or changes in the text will be charged.

Authors of scientific and professional papers will receive 5 copies of the journal free of charge. A copy of a journal will be forwarded to each contributor.
