Influence of Dietary Treatment on Lipid Metabolism in Metabolic Syndrome	69-77
<i>R. Teparić, I. Landeka, J. Tomić, D. Đikić</i>	
Funkcionalna svojstva polisaharida iz gljiva	78-84
<i>Functional Properties of Mushroom Dietary Fibres</i>	
<i>I. Jeličić i K. Lisak</i>	
Changes of Agronomic and Quality Traits in Fusarium-inoculated Wheat Genotypes	85-89
<i>V. Spanić, G. Drezner, D. Horvat</i>	
Isolation, Purification and Biochemical Characterization of CGTase from <i>Bacillus halodurans</i>	90-97
<i>S. S. More, R. Niraja, C. Evelyn, A. M. Byadgi, V. Shwetha, S. D. Mangaraj</i>	
Chemical Properties of Pumpkin Dried by Different Methods	98-105
<i>F. Henriques, R. Guiné, M. J. Barroca</i>	
Effect of Drying Methods on Physicochemical Properties of Pretreated Tomato (<i>Lycopersicon esculentum mill.</i>) Slices	106-111
<i>J. Owusu, H. Ma, Z. Wang, A. Amisshah</i>	
Usporedba različitih tehnika proizvodnje bioetanol na svježem soku šećerne repe	112-117
<i>Comparison Between Different Cultivation Techniques for Bioethanol Production from Raw Sugar Beet Juice</i>	
<i>M. Pavlečić, V. Lulić, S. Gašpari, M. Ivančić Šantek, P. Horvat, B. Šantek</i>	
Utjecaj ukupne koncentracije kisika u boci na kakvoću piva tijekom skladištenja	118-125
<i>The Effect of Total Oxygen Concentration in the Bottle on the Beer Quality During Storage</i>	
<i>M. Pavlečić, D. Tepalović, M. Ivančić Šantek, T. Rezić, B. Šantek</i>	
Mogućnosti primjene nanotehnologije u prehrambenom sektoru s osvrtom na njeno prihvaćanje od strane potrošača	126-131
<i>Possibilities of Nanotechnology Application in the Food Sector with Reference on its Consumers Acceptance</i>	
<i>N. Knežević, M. Ščetar, K. Galić</i>	
Upute autorima/Instructions to authors	132-135
