

## CROATIAN NAMES OF LAND SNAILS (MOLLUSCA: GASTROPODA): ADDENDA ET CORRIGENDA, 1.

VESNA ŠTAMOL, MARIJANA VUKOVIĆ & EDUARD KLETEČKI

Croatian Natural History Museum, Demetrova 1, 10000 Zagreb, Croatia

Štamol, V., Vuković, M. & Kletečki, E.: Croatian names of land snails (Mollusca: Gastropoda): addenda et corrigenda, 1. *Nat. Croat.*, Vol. 21, No. 2, 497–499, 2012, Zagreb.

Changes are proposed in Croatian land snail names for the taxa *Hiltrudia* H. Nordsieck, 1983, *Hiltrudia kumici* (Clessin, 1887), *Hiltrudia mathildae* (Westerlund, 1881) and *Dilataria marcki* (Zeilebor, 1868). Also, the first Croatian names are proposed for the land snail taxa Strobilopsidae Pilsbry, 1918, Spelaediscinae Steenberg, 1925, *Virpazaria* E. Gittenberger, 1969, *Virpazaria* (*Virpazaria*) E. Gittenberger, 1969, *Virpazaria* (*V.*) *pageti* E. Gittenberger, 1969, *Virpazaria* (*V.*) *pageti alexanderi* Reischütz & Subai, 2012 and *V.* (*V.*) *pageti kleteckii* Štamol & Subai, 2012.

**Key words:** land snails, Croatia, Croatian names, common names, Strobilopsidae, Spelaediscinae, *Virpazaria*, *Dilataria*, *Hiltrudia*

Štamol, V., Vuković, M. & Kletečki, E.: Hrvatska imena kopnenih puževa (Mollusca: Gastropoda): addenda et corrigenda, 1. *Nat. Croat.*, Vol. 21, No. 2, 497–499, 2012, Zagreb.

Predložene su izmjene hrvatskih imena kopnenih puževa svojiti *Hiltrudia* H. Nordsieck, 1983, *Hiltrudia kumici* (Clessin, 1887), *Hiltrudia mathildae* (Westerlund, 1881) i *Dilataria marcki* (Zeilebor, 1868). Također su predložena prva hrvatska imena za svojite kopnenih puževa Strobilopsidae Pilsbry, 1918, Spelaediscinae Steenberg, 1925, *Virpazaria* E. Gittenberger, 1969, *Virpazaria* (*Virpazaria*) E. Gittenberger, 1969, *Virpazaria* (*V.*) *pageti* E. Gittenberger, 1969, *Virpazaria* (*V.*) *pageti alexanderi* Reischütz & Subai, 2012 i *V.* (*V.*) *pageti kleteckii* Štamol & Subai, 2012.

**Ključne riječi:** kopneni puževi, hrvatska imena puževa, Strobilopsidae, Spelaediscinae, *Virpazaria*, *Dilataria*, *Hiltrudia*

### FIRST CROATIAN NAMES

During 2012 two subspecies of land snails new for science were described from Croatia, *Virpazaria* (*Virpazaria*) *pageti kleteckii* Štamol & Subai, 2012 (Fig. 1) and *V.* (*V.*) *p. alexanderi* Reischütz & Subai, 2012 (REISCHÜTZ *et al.*, 2012). The genus *Virpazaria* E. Gittenberger, 1969 was not previously registered for Croatia, nor was the subfamily Spelaediscinae Steenberg, 1925 or the family Strobilopsidae Pilsbry, 1918 (ŠTAMOL, 2010), to which the genus *Virpazaria* belongs, according to BANK (2011). Therefore Croatian names were formed for these taxa, according to the principle given by ŠTAMOL (2010), that the Croatian name for taxa the scientific names of which derive from a person's name should be formed after their distinctive morphological trait or their distribution range, in order to make it easier for the general public for which the Croatian names are intended to link a taxon with its name.

Proposed names are:

Familia Strobilopsidae Pilsbry, 1918 – kupolasti puževi

Subfamilia Spelaeodiscinae Steenberg, 1925 – puževi špiljotanjurci

Genus *Virpazaria* E. Gittenberger, 1969 – labrnjaši

Subgenus *Virpazaria* (*Virpazaria*) E. Gittenberger, 1969 – labrnjaši

*Virpazaria* (*Virpazaria*) *pageti* E. Gittenberger, 1969 – sjeverni labrnjaš

*Virpazaria* (*Virpazaria*) *pageti alexanderi* Reischütz & Subai, 2012 – prevlački labrnjaš

*Virpazaria* (*Virpazaria*) *pageti kleteckii* Štamol & Subai, 2012 – konavoski labrnjaš.

## CHANGES IN CROATIAN NAMES

ŠTAMOL (2010) suggests Croatian name »dlakavci« for the genus *Hiltrudia*, thus two associated species were named »crnogorski dlakavac« (*Hiltrudia kusmici* (Clessin, 1887)) and »dalmatinski dlakavac« (*H. mathildae* (Westerlund, 1881)). These names are not adequate because they denote a characteristic of the shells (hairiness) that does not actually exist. We suggest that the taxa should be named after the granular structure (from *zrno* – grain) of the teleoconch, and thus the new names would be:

Genus *Hiltrudia* H. Nordsieck, 1983 – zrnavci

*Hiltrudia kusmici* (Clessin, 1887) – crnogorski zrnavac

*Hiltrudia mathildae* (Westerlund, 1881) – dalmatinski zrnavac

ŠTAMOL (2010) suggests the Croatian name »Markova zaklopnica« for *Dilataria marcki* (Zebebor, 1868). The correct version should be »Marckova zaklopnica«.

## ACKNOWLEDGMENT

In the creation and selection of appropriate Croatian names our colleagues from the Croatian Natural History Museum Darija Čaleta and especially Dr Josip Balabanić were of great help, and we thank them sincerely. For photographing *Virpazaria*

(*V.*) *pageti kleteckii* we thank biospeleologist Roman Ozimec, MSc, who was the first to note the peculiarity of this snail and kindly brought the material to the first author for identification.

*Received September 15, 2012*
