CONTENTS

- 286** Editorial
- Felix A. Himmelstoss, Sergey E. Ryvkin* **290** DC/DC Converter for Motor Drive – Concept, Design, and Feed-Forward Control
original scientific paper
- Branislav Dobrucky, Mariana Benova, Mahmud Abdalmula, Slavomir Kaščák* **299** Design Analysis of LCTL Resonant Inverter for Two-Stage 2-Phase Supply System
original scientific paper
- Marek Pástor, Jaroslav Dudrik* **308** Predictive Current Control of Grid-tied Cascade H-bridge Inverter
original scientific paper
- Vinko Lešić, Mario Vašak, Nedjeljko Perić, Thomas M. Wolbank, Gojko Joksimović* **316** Fault-tolerant Control of a Wind Turbine with a Squirrel-cage Induction Generator and Rotor Bar Defects
original scientific paper
- Mateusz Dybkowski, Teresa Orłowska-Kowalska, Grzegorz Tarchala* **329** Sensorless Traction Drive System with Sliding Mode and MRAS^{CC} Estimators using Direct Torque Control
original scientific paper
- Ján Vittek, Vladimír Vavrůš, Peter Briš, Lukáš Gorel* **337** Forced Dynamics Control of the Elastic Joint Drive with Single Rotor Position Sensor
original scientific paper
- Czesław T. Kowalski, Robert Wierzbicki, Marcin Wolkiewicz* **348** Stator and Rotor Faults Monitoring of the Inverter-Fed Induction Motor Drive using State Estimators
original scientific paper

Karol Kyslan, František Durovsky

356 Dynamic Emulation of Mechanical Loads – An Approach Based on Industrial Drives' Features
original scientific paper

*Danijel Pavković, Nenad
Kranjčević, Milan Kostelac*

364 Design of Normal Force Control System for a Pin-on-Disk Tribometer including Active and Passive Suppression of Vertical Vibrations
original scientific paper
