ZDRAVKO TOMAC

**THE STRUGGLE FOR THE CROATIAN STATE**

**... through hell to democracy**

a book on the creation and revival of the Croatian state

**THE STRUGGLE FOR THE CROATIAN STATE** was written during 1992 at the time when Croatia was suffering Serbia's and the Yugoslav peoples's Army aggression. Along with a survey of the historical background and the causes crucial for the chain of events which resulted in the war in former Yugoslavia, the book describes the maze of political intrigue and diplomatic double-dealing permeating Croatia's international recognition, its struggle for sovereignty and the national reconciliation of Croats. The book expresses the personal viewpoint of Zdravko Tomac, professor of political sciences at Zagreb University, currently a member of the Croatian Parliament, and the wartime Deputy Prime Minister of the coalition Government of Democratic Unity from the summer of 1991 to the summer of 1992. Along with first-hand information on that fateful period of Croatian history, the book contains the author's reflections on an individual's fate and conscience in the whirlpool of mass events.
