organiziraju

VIII. međunarodni

Kongres prehrambenih tehnologa, biotehnologa i nutricionista

21. do 24. listopada 2014. godine

Opatija, Hrvatska

Pozivamo Vas da sudjelujete na 8. međunarodnom Kongresu prehrambenih tehnologa, biotehnologa i nutricionista. Želja nam je potaknuti što veći broj znanstvenika i stručnjaka iz Hrvatske i inozemstva da se uključe i aktivno sudjeluju u radu Kongresa. Smatrajući vrlo važnom implementaciju najnovijih znanstvenih i stručnih dostignuća u razvoj hrvatskog gospodarstva, u radu Kongresa predviđene su sljedeće tematske sekcije:

- New Developments in Food Processing and Novel Foods
- Food Quality, Safety and Regulation
- Food, Health and Nutrition
- Food Engineering
- Food Chemistry (Natural Antioxidants and Antimicrobials, Functional Foods and Ingredients; industrial and consumer perspectives)
- Clinical Nutrition and Nutrigenomic
- Biotechnology and Bioprocess Engineering
- Industrial Biotechnology - Future Bioindustries – Microfactories - Microbial production of Biochemicals, Biofuels and Pharmaceuticals
- Microbial Physiology, Metabolism and Gene Expression
- Wastewater, Treatment, Reuse, Bioremediation, Legislation

S radošću Vas očekujemo na znanstvenom i prijateljskom druženju na 8. međunarodnom Kongresu prehrambenih tehnologa, biotehnologa i nutricionista.

Prof.dr.sc. Damir Ježek

Predsjednik Organizacijskog odbora Kongresa

organize

8th International Congress of Food Technologists, Biotechnologists and Nutritionists

21th to 24th October 2014
Opatija, Croatia

We are pleased to invite you to active participation in 8th International Congress of Food Technologists, Biotechnologists and Nutritionists. The Congress 2014 will provide a platform for food scientists, biotechnologists, nutritionists, producers, young scientists and students to present their latest research achievement and share valuable experiences in the field of food technology, biotechnology and nutrition.

The Conference will address the following topics:

- New Developments in Food Processing and Novel Foods
- Food Quality, Safety and Regulation
- Food, Health and Nutrition
- Food Engineering
- Food Chemistry (Natural Antioxidants and Antimicrobials, Functional Foods and Ingredients; industrial and consumer perspectives)
- Clinical Nutrition and Nutrigenomic
- Biotechnology and Bioprocess Engineering
- Industrial Biotechnology - Future Bioindustries – Microfactories - Microbial production of Biochemicals, Biofuels and Pharmaceuticals
- Microbial Physiology, Metabolism and Gene Expression
- Wastewater, Treatment, Reuse, Bioremediation, Legislation

On behalf of the Organizing Committee it is a pleasure to welcome all participants of the 8th International Congress of Food Technologists, Biotechnologists and Nutritionists. Welcome to Opatija!

Prof. Damir Ježek

President of the Organizing Committee
