Retraction statement

Elizabeta Topić, Dubravka Čvorišćec

Uredništvo časopisa *Biochemia Medica* je nedavno uočilo da su sljedeće *draft* inačice smjernica (Tablica 1.) prevedene i objavljene bez dozvole Nacionalne akademije za kliničku biokemiju (NACB, Washington, DC, USA), koja posjeduje autorska prava za navedeni materijal. Objavljeni materijal nije bio u konačnom obliku te je moguće da je došlo do izvjesnih promjena na smjernicama od trenutka njihovog objavljivanja u časopisu *Biochemia Medica*. Smjernice stoga ne bi trebalo koristiti kao temelj za kliničku praksu.

It was recently recognized by the Editorial board of *Biochemia Medica* that following draft NACB guidelines (Table 1) were unfortunately translated and published without the permission of the copyright holder—the National Academy of Clinical Biochemistry, Washington, DC. The published material was not in the final format and changes may have occurred to the guideline since the time of their publication in *Biochemia Medica*. Translated guidelines should not be used as a basis for clinical practice.
