

## Join the European Network for Social and Emotional Competence (ENSEC)!

The European Network for Social and Emotional Competence (ENSEC) is a still young but growing network of passionate researchers and practitioners working in the area of social and emotional education in Europe. ENSEC is devoted to the development and promotion of evidence-based practice in relation to socio-emotional competence and resilience amongst school students (ranging from preschool to higher education) in Europe aiming

- To serve as a repository for information and data about strategies for the promotion of socio-emotional competence and resilience in schools in Europe.
- To engage in collaborative original empirical research within a European dimension
- To develop collaborative European wide award-bearing academic programmes in this area
- To engage in dialogue with policy makers and practitioners in Europe and contribute to policies and practices in this area.

While the main focus of the Network is on what goes in Europe, the network seeks to establish collaboration and dialogue also with individuals and organisations outside of Europe.

There are two main entry criteria for membership, namely:

- the applicant must be a researcher (including PhD students) and/or practitioner working in the area of social and emotional education
- the applicant must be affiliated to a not-for-profit organisation.

Members from European countries are eligible for full membership while those from outside Europe may join as associate members. Both memberships are **free of charge**.

As a member, you will have full access to the website <http://enseceurope.org/> where we upload news and currently establish new features for interaction, such as special interest groups, country coordination and data bases. Further, members can circulate information about publications, projects, non-profit events like conferences via the ENSEC newsletter we issue at least three to four times a year.

Members may also register for the network journal, the **International Journal of Emotional Education**, free of charge.

To become a member, just download the application form:

[http://enseceurope.org/?page\\_id=82](http://enseceurope.org/?page_id=82) or email co-chair Carmen Huser for further questions:

[carmen\\_huser@web.de](mailto:carmen_huser@web.de)

After four very successful conferences held in the last six years, we count 237 members from European countries and 78 members outside of Europe. Research findings and practices are presented at the biannually held ENSEC conference and through publications.

Join the network today, and participate in informing and improving social-emotional education for young children and students!

*Carmen Huser*

## Pridružite se europskoj mreži za socijalnu i emocionalnu kompetenciju (ENSEC)!

---

Europska mreža za socijalnu i emocionalnu kompetenciju (ENSEC) mlada je, ali rastuća mreža strastvenih znanstvenika i stručnjaka iz područja socijalnog i emocionalnog obrazovanja u Europi. ENSEC je posvećen razvoju i promidžbi prakse utemeljene na dokazima vezanima uz socijalnu i društvenu kompetenciju i otpornost među učenicima (od vrtića do visokog obrazovanja) u Europi s ciljem:

- da služi kao repozitorij informacija i podataka o strategijama za promidžbu socijalne i emocionalne kompetencije i otpornosti u europskim školama
- da se uključi u zajednička znanstvena istraživanja s europskom dimenzijom
- da razvije zajedničke europske akademske programe iz tog područja
- da se uključi u dijalog na političkoj sceni i među stručnjacima u Europi te da doprinese u donošenju zakona i u praksi u tome području.

Dok je naglasak mreže na događanjima u Europi, također se potiče ostvarivanje zajedničkog rada i dijaloga s pojedincima i organizacijama izvan Europe.

Postoje dva glavna uvjeta za članstvo:

- kandidat mora biti istraživač (uključujući i doktorande) i/ili praktičar koji radi u području socijalnog i emocionalnog obrazovanja
- kandidat mora biti uključen u neprofitnu organizaciju.

Članovi iz europskih zemalja mogu biti punopravni članovi, a članovi izvan Europe mogu biti pridruženi članovi. U oba slučaja **članstvo je besplatno**.

Članovi imaju potpun pristup mrežnoj stranici <http://enseceurope.org/> na kojoj se objavljuju novosti i trenutne nove mogućnosti interakcije poput posebnih interesnih skupina, koordinacije u zemlji, baze podataka. Članovi mogu dijeliti informacije o publikacijama i neprofitnim događanjima poput konferencija putem ENSEC biltena koji objavljujemo tri do četiri puta godišnje.

Članovi se mogu prijaviti na mrežni časopis, **International Journal of Emotional Education**, i besplatno ga primati.

Kako biste postali član, preuzmite zahtjev sa stranice:

[http://enseceurope.org/?page\\_id=82](http://enseceurope.org/?page_id=82) ili se, ako imate pitanja, javite članici odbora ENSEC-a Carmen Huser: [carmen\\_huser@web.de](mailto:carmen_huser@web.de)

Nakon četiri vrlo uspješne konferencije koje su održane u posljednjih šest godina, imamo 237 članova iz europskih zemalja i 78 izvan Europe. Rezultati istraživanja i praksa demonstriraju se bienalno na ENSEC konferencijama i putem publikacija.

Pridružite se mreži danas i sudjelujte u informiranju i poboljšanju socijalnog i emocionalnog obrazovanja za djecu i studente!
