

A large offshore oil and gas platform, the INA platform, is situated in the Adriatic Sea. The platform is a complex of steel structures, including a tall central tower and various processing units, supported by a network of legs. The sea is a deep blue with gentle waves, and the sky is a clear, pale blue. The platform is the central focus of the image, extending from the left towards the center.

Stručno znanje i iskustvo naša su snaga za buduće uspjehe.

Proizvodnja plina iz sjevernog Jadrana započela je 1999. godine na polju Ivana.

Danas se odvija na 9 polja, preko 16 proizvodnih i jedne kompresorske platforme, iz 35 bušotina.
