CONTENTS

**382** Editorial

*Ivan Marković, Ivan Petrović* — **386** Bayesian Sensor Fusion Methods for Dynamic Object Tracking – A Comparative Study
*original scientific paper*

*Ali Bekir Yildiz, Ezgi Unverdi* — **399** Simplified Harmonic Model for Full Wave Diode Rectifier Circuits
*original scientific paper*

*Da Liu, Muguo Li* — **405** Adaptive Wavelet Neural Network Backstepping Sliding Mode Tracking Control for PMSM Drive System
*original scientific paper*

*Bochra Khelifi, Bachir Nekhoul, Kamal Kerroum, Khalil El Khamlichi Drissi, Dragan Poljak* — **416** Electromagnetic Compatibility in Air Insulation Substation
*original scientific paper*

*Changqing Qiu, Shenghua Huang, Ende Wang* — **425** Direct Active Power Control for Regenerative Cascade Inverter with Reduced AC Power in DC Link
*original scientific paper*

*Subramanian Vijayalakshmi, Thangasamy Sree Renga Raja* — **434** Time domain based Digital PWM controller for DC-DC converter
*original scientific paper*

*Miran Rodič*

**446** Modeling of DC-link Connected Multiple-converter System Operating as Microgrid
*original scientific paper*

*Mohamed Bounadja, Ahmed Wahid Belarbi, Bachir Belmadani*

**455** Vector Control of Double Excited Synchronous Machine as Integrated Starte–Alternator
*original scientific paper*

*Károly Széll, András Czmerk, Péter Korondi*

**463** Friction with Hysteresis Loop Modeled by Tensor Product
*original scientific paper*

*Andraž Kontarček, Mitja Nemec, Primož Bajec, Vanja Ambrožič*

**474** Single Open-phase Fault Detection with Fault-Tolerant Control of an Inverter–fed Permanent Magnet Synchronous Machine
*original scientific paper*

*Mario Bogdanović*

**487** Frequency domain based LS channel estimation in OFDM based Power line communications
*original scientific paper*

*Vitomir Šeba, Borivoj Modlic, Gordan Šišul*

**495** Resource Allocation Algorithm with Dynamic Subcarrier Assignment in OFDMA-based Wireless Networks
*original scientific paper*

*Moazzam Islam Tiwana*

**504** Self Organizing Networks: A Reinforcement Learning Approach for Self–Optimization of LTE Mobility Parameters
*original scientific paper*

*Danko Basch, Dorian Ivančić, Nikica Hlupić*

**514** Mark without much Sweep Algorithm for Garbage Collection
*original scientific paper*

**526** IFAC Newsletter
