

# VLADIMIR PRELOG

## Surprise Festschrift

In the year 1996 *Croatica Chemica Acta* published the Festschrift dedicated to the Croatian Nobel laureate Professor Vladimir Prelog on the occasion of his 90<sup>th</sup> birthday. The Festschrift was published as No. 2 of Volume 69.

Professor Prelog passed away in 1998.

In 2006 Croatian chemists are celebrating the 100<sup>th</sup> anniversary of his birth and the Editorial Board of *Croatica Chemica Acta* decided to publish the electronic version of the part of the Festschrift of 1996 relating to the life and scientific achievements of Professor Vladimir Prelog.

## INSTRUCTIONS TO AUTHORS

*Croatica Chemica Acta* is an international journal devoted to the publication of papers from all fields of chemistry. Four issues are published annually.

Contributions should be written in English; an abstract (translated) in Croatian is added.

CCA publishes Original scientific papers, Notes, Preliminary communications, Authors' reviews, Reviews, Feature articles, Conference papers, Essays and Data bank contributions. In the appendix, the Journal publishes Letters to the Editor, book reviews, obituaries and the Croatian Chemical Society news.

*Original scientific papers* report unpublished results of original research. The papers have to contain all the necessary information to enable reproducibility of the described work.

*Notes* report unpublished results of short, but completed, original research or describe original laboratory techniques (methods, apparatus, etc.). Notes should not exceed 1000 words.

*Preliminary communications* report unpublished preliminary results of original research that require prompt publication.

*Authors' reviews* are concise and critical surveys of the author's current research field. The author's contribution should be compared to the data (results, information) provided by other scientists in the same field.

*Reviews* are concise and critical surveys of a specific research field, providing the reader with up-to-date information on current developments and trends. As a rule, reviews are written upon invitation from the Editor.

*Feature articles* are concise and critical reviews of a current topic, pointing to trends and controversies in the field. They should be understandable to non-specialists. Feature articles are written upon invitation from the Editorial Board and should not exceed 20 typewritten pages.

*Conference papers* should be reported at a congress, symposium or summer school prior to submission to the Journal. Conference papers are submitted by the Organizing Committee.

*Essays* report *curricula vitae* of the important Croatian chemists and accounts of the history of chemistry.

*Data bank contributions* contain new chemical and physical data in order to make them available for subsequent scientific interpretation and various practical uses.

*Letters to the Editor* are a medium for expression of scientific opinions or exchange of different views concerning the material published in CCA.

All contributions are evaluated according to the criteria of originality and quality of their scientific content. Original scientific papers, Notes and Preliminary communications are sent to two referees, Feature articles and Conference papers to one, and Authors' reviews, Reviews, Essays and Data bank contributions to three. Only papers with favourable reports are accepted for publication.

Detailed *Instructions to Authors* are printed in the first issue of each volume.

CROATICA CHEMICA ACTA

Zagreb, Croatia

*In honour of*

Professor Vladimir Prelog

VLADIMIR PRELOG – With his own samples after 45 years.

During his visit to the Department of Organic Chemistry, the Faculty of Technology, Zagreb, June 1986, Professor Prelog examines with interest the samples of substances that he synthesized between 1936 and 1941 while working in Zagreb (taken by Dr. M. Dumić on June 7, 1986).
