

K I N E S I O L O G Y

International Journal of Fundamental and Applied Kinesiology

Vol. 47(2015) No.2 (129-260)

Contents

Gerald T. Mangine, Jay R. Hoffman, David H. Fukuda, Jeffrey R. Stout and Nicholas A. Ratamess

*(Review)***Improving muscle strength and size: The importance of training volume, intensity, and status** 131-138

Kamal Azizbeigi, Sirvan Atashak and Stephen Robert Stannard

*(Original scientific paper)***Effect of different rest interval lengths of resistance exercise
on lipid peroxidation and creatine kinase responses** 139-144

Anne Deleextrat, Marcus O'Connor Ellis, Catherine E. Baker, Dionne Matthew, Alvin Sum and Lawrence D. Hayes

*(Original scientific paper)***Acetaminophen ingestion improves repeated sprint cycling performance in females:
A randomized crossover trial** 145-150

Daniel Mayorga-Vega and Jesús Viciano

*(Original scientific paper)***Differences in physical activity levels in school-based contexts –
influence of gender, age, and body weight status** 151-158

İhsan Sarı

*(Original scientific paper)***Satisfaction of basic psychological needs and goal orientation in young athletes:
A test of basic psychological needs theory** 159-168

Maja Smrdu

*(Original scientific paper)***First-person experience of optimal sport competition performance of elite team athletes** 169-178

Hamit Cihan

*(Original scientific paper)***The effect of defensive strategies on the physiological responses
and time-motion characteristics in small-sided games** 179-187

Cassio V. Ruas, Lee E. Brown and Ronei S. Pinto (<i>Original scientific paper</i>) Lower-extremity side-to-side strength asymmetry of professional soccer players according to playing position	188-192
Craig Pulling (<i>Original scientific paper</i>) Long corner kicks in the English Premier League: Deliveries into the goal area and critical area	193-201
Javier Yanci (<i>Original scientific paper</i>) Analysis of goals scored by players with cerebral palsy in official football 7-a-side matches	202-207
David Cárdenas, Enrique Ortega, Javier Llorca, Javier Courel, Guillermo Sánchez-Delgado and María Isabel Piñar (<i>Original scientific paper</i>) Motor characteristics of fast break in high level basketball	208-214
Patrícia Coutinho, Isabel Mesquita, António Manuel Fonseca and Jean Côte (<i>Original scientific paper</i>) Expertise development in volleyball: The role of early sport activities and players' age and height	215-225
Selcuk Akpınar (<i>Original scientific paper</i>) The effect of long-term bimanual training on arm selection during reaching tasks	226-235
Marta Gimunová, Mario Kasović, Martin Zvonař, Pavel Turčíněk, Branka Matković, Pavel Ventruba, Martin Vaváček and Damir Knjaz (<i>Original scientific paper</i>) Analysis of ground reaction force in gait during different phases of pregnancy	236-241
Arunas Emeljanovas, Romualdas Malinauskas, Irena Valantine and Ken Hardman (<i>Original scientific paper</i>) The relationship between the assessment system in physical education in the former Soviet State of Lithuania and physical activity levels of adults	242-252
Guidelines for contributors	253-256
