

## 6. kongres Hrvatske udruge kardioloških medicinskih sestara

### 6<sup>th</sup> Congress of the Croatian Association of Cardiology Nurses

#### Poštovani kolegice i kolege,

Osobita mi je čast i zadovoljstvo pozdraviti Vas u Zagrebu na 6. kongresu Hrvatske udruge kardioloških medicinskih sestara (HUKMS) s međunarodnim sudjelovanjem! Moto kongresa je *"Izazovi i nove perspektive hrvatskog kardiološkog sestринства"*.

U skladu s dobro nam poznatom tradicijom naš kongres se održava u isto vrijeme kada i 11. kongres Hrvatskog kardiološkog društva (HKD). Stoga se ovom prilikom zahvaljujem predsjedniku HKD-a akademiku Davoru Miličiću na svekolikoj pomoći i podršci. Kardiološko sestринство je aktivni sudionik integracije inovativnih procedura u kardiološku kliničku praksu. Nove metode u dijagnostici i liječenju kardioloških bolesnika izazov su za medicinske sestre i poticaj da prestano tragaju za novim spoznajama, a s ciljem osiguranja najbolje moguće kvalitete života onih koji našu pomoć trebaju. Stoga su naši kongresi usmjereni poticanju višeg standarda profesionalne izvrsnosti. Tomu svjedoči i stručni program kongresa popunjen predavanjima i radionicama koje će održati i voditi naši pozvani predavači iz domaće i svjetske kardiološke prakse te odabranim temama predavanja i poster prezentacija koje su prijavili medicinske sestre i tehničari iz hrvatske i slovenske kardiološke prakse.

Kongres je prigoda za održavanje redovite Skupštine HUKMS-a. Osobitost ovogodišnjeg kongresa i Skupštine jest deseta obljetnica utemeljenja HUKMS-a. Stoga smo uz široku lepezu stručnih sadržaja pripremili i poneka iznenađenja s nadom da će uljepšati naša prijateljska druženja, i da će Vam Zagreb ostati u srcu.

Dobro došli u Zagreb!  
Srdačno Vaša,

**Ana Ljubas**

Predsjednica kongresa / Congress president

RECEIVED: October 10, 2016

#### Dear, distinguished colleagues,

It is my great honor and pleasure to welcome you in Zagreb at the 6<sup>th</sup> Congress of the Croatian Association of Cardiology Nurses (CACN) with international participation. The motto of the congress is "Challenges and new perspectives of a Croatian Cardiac nursing".

In accordance with the well-known tradition of our Congress, it is being held at the same time as the 11<sup>th</sup> Congress of the Croatian Cardiac Society (CCS). So I take this opportunity to thank the President of CCS academician Davor Miličić on his overall help and support. Cardiac nursing is an active participant in the integration of innovative procedures in cardiological clinical practice. New methods in the diagnosis and treatment of cardiac patients are a challenge for nurses and incentive to constantly search for new knowledge, and to ensure the best possible quality of life of those who need our help. Therefore, our congress aimed to encourage higher standards of professional excellence. This we can see in the Congress program, with numerous lectures and workshops that lead by our invited speakers from local and international cardiology practice and, also, with selected topics and poster presentations that were submitted by nurses and technicians from the Croatian and Slovenian cardiology practice.

The Congress is an opportunity to have a regular CACN Assembly. Particularity of this Congress and the Assembly is that this year we celebrate the 10<sup>th</sup> anniversary of the founding of CACN. Therefore, with wide range professional topics, rich with content, we prepared some surprises too, with the hope that will brighten our friendly gatherings and that Zagreb will stay in your hearts.

Welcome to Zagreb!  
Sincerely yours,
