

IN MEMORIAM

Slavko Lulić, dipl. ing. agronomije

U četvrtak 06. listopada 2016. godine u Slavonskom Brodu je u 76. godini blago u Gospodinu preminuo gospodin Slavko Lulić, dipl. ing. agronomije. Nakon završetka Agronomskog fakulteta u Zagrebu 1963. godine, započeo je raditi u PIK-u Belje - pustara Jankovci. Zatim je nastavio raditi u TSH KRMA u Vinkovcima, kao tehnolog i nutricionista. Još tada je započeo suradnju s Agronomskim fakultetom u Zagrebu, Centrom za peradarstvo u Zagrebu, Poljoprivrednim fakultetom u Osijeku i Veterinarskim zavodom u Vinkovcima. Godine 1983. dolazi u tvrtku Krmiva, gdje je nastavio raditi do samog kraja svog života. U proteklim godinama kada je bilo izuzetno teško poslovati, uspio je Krmiva prilagoditi poslovnim izazovima, uvijek u smjeru poljoprivredne proizvodnje. Tamo gdje su mnogi završavali u poslovnom životu, gospodin Slavko Lulić je pokretanjem svinjogojske farme krenuo u novi poslovni pothvat. Uvijek je bio otvoren za nova saznanja i nove tehnologije, gledajući kako ih prenijeti i primijeniti na svojoj farmi i u Hrvatskoj.

Osnovao je Udrugu tvornica stočne hrane i nutricionista gdje je kao predsjednik uvijek nastojao dati značajan doprinos razvoju stočarstva Republike Hrvatske. Njegov je veliki doprinos bio utemeljenje Međunarodnog savjetovanja Krmiva gdje je kao predsjednik Organizacijskog odbora u protekle 23 godine uspješno okupljao istaknute znanstvenike iz oko 50 zemalja, koji su iznosili svoja iskustva i ostvarene znanstvene rezultate o tehnologijama uzgoja životinja i tako stalno doprinosili razvoju stočarstva i poljoprivrede u Hrvatskoj, Europi i Svijetu.

Bio je brižan suprug i roditelj, volio je svoju agronomsku struku, svoj Varoš, Slavonski Brod, svoj Zagreb, svoju Slavoniju i domovinu Hrvatsku kojoj je mnogo doprinio materijalno i humano.

Neka mu je laka hrvatska zemlja koju je toliko volio.

On Thursday, 6 October 2016 in Slavonski Brod in the 76th year treasure in the Lord died, Mr. Slavko Lulic, dipl. ing. agriculture. After completion of the Faculty of Agriculture in 1963, began working in the PIK Belje - field Jankovci. Then he continued to work in TSH KRMA in Vinkovci as a technologist and nutritionist. Even then began working with science and has collaborated with the Faculty of Agriculture in Zagreb, Centre for Poultry in Zagreb, Faculty of Agriculture in Osijek and Veterinary Institute in Vinkovci. From 1983 comes to a company Krmiva, where he continued to work until the very end of his life. In the past years when it was extremely difficult to do business, he was able to adapt Krmiva business challenges, always in the direction of agricultural production. Where there are many ended up in business life, Mr. Slavko Lulic dipl. ing. agriculture is launching pig farm set in the new business venture. He was always open to new knowledge and new technologies, looking to transfer them and apply on his farm and in Croatia. He founded the Association of fodder factory and nutritionists where as President always tried to give her a significant contribution to the development of cattle livestock production in the Croatia. His great contribution was the establishment of the International symposium Krmiva where as President of the Organizing Committee in the past 23 years successfully brought together prominent scientists from 50 countries, who presented their experience and achieved results of scientific technologies of animal breeding and thus continuously contributed to the development of animal husbandry and agriculture in Croatia, Europe and worldwide.

He was a loving husband and parent, loved his agronomy, his Varoš, Slavonski Brod, his Zagreb, Slavonia and his homeland which has contributed a great deal of material and human.

Have rest his soul Croatian land that he loved so much.
