

CROATICA
CHEMICA ACTA

Croat. Chem. Acta Vol. 62 No. 4

A15—A16 C15—C16 I—XVI
561—878 (1989)

Zagreb, February 25, 1990

CONTENTS

The contents of CCA may be reproduced, citing the original form, in any medium without prior permission

General and Theoretical Chemistry

- Hermite-Gaussian Expansion of Hydrogenic Orbitals
... M. Primorac, K. Kovačević, and Z. B. Maksić 561—577
- Electron Pair Methods vs. Independent Particle Approximation: Quasi-particle Transformations
... P. R. Surján 579—585
- Analysis of the r -Dependence of *ab initio* Parameters α_i of the X_α Method for Different Molecular Orbitals in the Molecule H_2O ... A. Nagy 587—594
- Corrected Mulliken Charges for Small Molecules
... M. N. Ramos, M. Gussoni, C. Castiglioni, and G. Zerbi 595—602
- Protonation of Pyrrole: A Model Hardness (Softness) Sensitivity Study
... R. F. Nalewajski and J. Korchowiec 603—616
- Unrestricted Hartree-Fock Roothaan Calculations of Geometrical Parameters of (Z)- $CH_3CH=NO$ and (E)- $CH_3CH=NO$ Iminoxy Radicals
... M. Yu. Balakina, M. B. Zuev, and I. D. Morozova 617—622
- Semiempirical Study of Intramolecular Hydrogen Bond in Naphthazarin
... Z. B. Maksić, M. Eckert-Maksić, and D. Kovaček 623—644
- Semiempirical Study of Intramolecular Hydrogen Bond in 6-Hydroxy-2-formylfulvene and 9-Hydroxyphenalenone
... M. Eckert-Maksić, Z. B. Maksić, and D. Margetić 645—660
- Studies of Electronic Structure of Saturated Organic Molecules
... V. Gineityte and D. Shatkovskaya 661—668
- Frontier Hybrid Orbitals. I. Principles ... Cao Yang and Wang Youliang 669—676
- Frontier Hybrid Orbitals. II. Applications
... Cao Yang and Wang Youliang 677—685
- Frontier Hybrid Orbitals. III. Study on S_N2 Reactions
... Cao Yang and Wang Youliang 687—693
- Hybridization in ML_k ($k > 2$) Systems
... Frank Liu and Chang-Guo Zhan 695—703
- Pauling's Pair-Defect-Sum Approximation and the Maximum Overlap Method ... Chang-Guo Zhan, Zhen-Min Hu, and Frank Liu 705—709
- The Conjugated-Circuit Model Revisited
... N. Trinajstić, D. Plavšić, and D. J. Klein 711—718
- The Conjugated Circuit Model: Application to Benzenoid Hydrocarbon Radicals ... D. Plavšić, N. Trinajstić, M. Randić, and C. Venier 719—740
- Theoretical Calculations of The Magnetic Susceptibility in Some Organic Molecules ... A. Yu. Sadykova 741—750
- Molecular Second Moments and Diamagnetic Susceptibilities. Reparametrization of the Independent Atom Model Formulas
... D. Kovaček and Z. B. Maksić 751—761
- Electronic Structure of Superheavy Elements and Their Compounds
... V. G. Pershina, G. V. Ionova, and N. I. Suraeva 763—773

Continued on the inner back cover side.

Symmetry-Modelling of Rare Earth Compounds with Kramers Ions: II. Erbium(III) in Various Solids	... K. Gatterer and H. P. Fritzer	775—781
Energy Levels of Paramagnetic Ions: Algebra. VI. Transition Intensity Calculations	... M. Kibler and J.-C. Gâcon	783—797
Polarizability in Excited States	... J. Rychlewski	799—812
Photoelectron Spectra, MNDO Calculations and Electronic Structure of Some Saturated Steroids	... Lj. Paša Tolić, B. Kovač, L. Klasinc, J. V. Knop, C. Kubli-Garfias, and S. P. McGlynn	813—823
Interaction of Caffeine Molecular Associates with Water: Theory and Experiment	... A. V. Shestopalova	825—834
A Study of Solid-Liquid Interface by Computer Simulation	... G. Balabanić, B. Borštnik, R. Milčić, A. Rubčić, and F. Sokolić	835—853
A Simple Model for the Intermolecular Interactions in Halogene Crystals	... D. Kirin and S. Dukan	855—859
Structures and Textures of Crystalline Phases and Lyotropic Mesophases of Alkylbenzenesulfonates	... D. Težak and S. Popović	861—869
Theoretical Study of ^{14}N , ^{17}O , and ^{19}F Hyperfine Coupling Constants	... Cheng Chen and Li-Hwa Lu	871—878
