

FIRST YUGOSLAV SYMPOSIUM ON MOLECULAR SCIENCES
»MODELLING OF STRUCTURE AND PROPERTIES OF MOLECULES
AND MATERIALS«

Zagreb
May 28—30, 1986

Sponsored by:

Croatian Chemical Society
INA-Research and Development, Zagreb
Institute »Ruder Bošković«
Union of Yugoslav Chemical Societies
Yugoslav Academy of Sciences and Arts

The purpose of this Symposium is to gather researchers working in structural chemistry, spectroscopy, theoretical chemistry, biochemistry and related fields in order to exchange ideas in studying properties of molecules and materials. Emphasis will be laid on strengthening ties between experiment and theory.
