

Prikaz novoizašle knjige o bolestima koje se prenose sjemenom

Seed-borne Diseases and Seed Testing of Wheat

(Bolesti koje se prenose sjemenom pšenice i analize zdravstvenog stanja sjemena)

Knjigu su za tisak pripremili D.B. Mathur direktor Danskog državnog instituta za patologiju sjemena za nerazvijene zemlje u Kopenhagenu i Barry M. Cunfer, profesor fitopatologije Georgijskog sveučilišta u Griffinu.

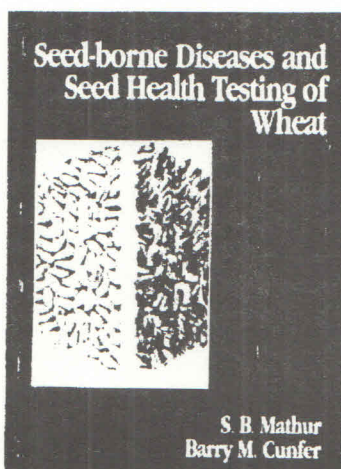

Ona je podijeljena u 14 poglavlja koja su napisana od 21 međunarodnog eksperta za patologiju pšenice i zdravstveno stanje sjemena. Objavio ju je Danski institut u ožujku 1993 (ISBN 87 7026 329 9). Sadrži 168 stranica u mekom uvezu. U svakom poglavlju daje detaljan opis patogena, znakova bolesti, uloge sjemena kao izvora zaraze u životnom ciklusu, zaraze sjemena i metode analize sjemena za tog uzročnika. Obrađeno je dvadesetsedam bolesti čiji su uzročnici gljive, bakterije i virusi.

Poglavljia su ilustrirana s više od 100 fotografija od kojih je 77 u boji. Crtežima su prikazani životni ciklusi većine bolesti.

Knjigu se može kupiti tako da pošaljete 45 USD na slijedeću adresu:
Danish Government Institute of Seed Pathology for Developing Countries

P.O. Box 34
Ryvangs Allé 78

A new book on Seed-borne diseases and assaying seed

Seed-borne Diseases and Seed Health Testing of Wheat

Edited by S.B. MATHUR, Director of the Danish Government Institute of Seed Pathology for Developing Countries, Copenhagen, Denmark, and BARRY M. CUNFER, Professor of Plant Pathology, University of Georgia, Griffin.

The book is divided into 14 chapters written by 21 international experts on wheat pathology and seed health. It was published by the Danish Institute in March 1993 (ISBN 87 702 G 3299). It is 168 pages long and bound with a soft cover. Each chapter presents a detailed description of the pathogen, information on symptom development, the role of seed-borne inoculum in the disease cycle, seed infection, and methods to assay seed for pathogens. Twenty-seven diseases caused by fungi, bacteria, and viruses are discussed. The chapters are illustrated with more than 100 photographs, including 77 in color. Disease cycles are also presented as line drawings for many of the diseases.

Copies can be purchased by sending \$45 (US) to:

Danish Government Institute of Seed Pathology for Developing Countries
P.O. Box 34 Ryvangs Allé 78 DK-2900 Hellerup
Copenhagen, Denmark

There will be a 10% discount for orders of five or more copies.
