

## *SUMMARY*

### **DAPARIAN COINS**

The author, who has devoted several years to the study of the Illyrian mint in Damastion (4th c. BC), lists all the coins known to have been minted in the city of Daparia. Literature describes only six different types and there is a total of seven specimens of coins. The author describes an unpublished and especially interesting coin of Daparia from his own collection. On the basis of known literature he attempts to find the geographic location of the Daparian mint, which was closely connected and perhaps also territorially linked with the mints in Damastion and Pelagia.
