

EUCHEM Conference on Stereochemistry

The 20th EUCHEM Conference on Stereochemistry, covering a wide range of topics in chemistry with emphasis on its interdisciplinary character in natural sciences, will be held on the

Bürgenstock near Lucerne from April 29—May 5, 1984.

The number of participants will be limited.

Inquiries and applications (no special forms are required) should be addressed before January 15, 1984, to the President:

Prof. L. Ghosez

Université de Louvain

Laboratoire de Chimie Organique de Synthèse

Place Louis Pasteur 1

B-1348 Louvain-La-Neuve

A limited number of posters can be accommodated; titles should be submitted with the application.

THE RUDJER BOŠKOVIĆ INSTITUTE

Center for Marine Research — Zagreb, Yugoslavia

VIII INTERNATIONAL SYMPOSIUM »CHEMISTRY OF THE MEDITERRANEAN«

under the auspices of the
*International Commission for the Scientific Exploration
of the Mediterranean Sea*

Primošten, Croatia, Yugoslavia, 16—24 May 1984

The main topic of the Symposium will be *Residence Time of Microconstituents in Coastal Waters* with the emphasis on the speciation of dissolved microconstituents, mechanisms and rate of heterogeneous processes, influence of living organisms on dissolved microconstituents in seawater, conceptual and mathematical models for the evaluation of residence time.

The Symposium will aim at the broadest possible coverage of the physico-chemical pathways of pollutants in the coastal zone in relation to the high biological and geological activity in such an area. The program will consist of invited lectures, »ad hoc« contributions, and »round table« discussions. Ample discussion time will be provided. Requests for further information should be sent to:

*Dr. Marko Branica,
Chemistry of the Mediterranean Symposium,
Center for Marine Research — Zagreb,
The Rudjer Bošković Institute,
POB 1016, 41001 Zagreb, Yugoslavia.*
