ERRATA

In Honour of Professor Dužan Hadži's 60th Birthday [*Croat. Chem. Acta* **55** (1982) 1—5] by N. Sheppard

Page 2, line 9: the second formula  should be 
Page 4, line 3: amphasised should be read as emphasised.

The Electron Density of the Hydrogen Bond [*Croat. Chem. Acta* **55** (1982) 171—190] by I. Olovsson

Page 175, 5 lines up from the foot: only on should be changed to only one.

Vibrational Spectroscopic Studies of Phase Transitions in Organic Molecular Crystals and Dicarboxylic Acids [*Croat. Chem. Acta* **55** (1982) 207—221] by C. N. R. Rao, S. Ganguly, and H. R. Swamy

Page 207, line 3 of Introduction: Eearly should be replaced by Early.

The following should be added to the Captions of Figures 1, 2, and 3.

Figure 1:

Areas of bands were taken as intensities. Arrow corresponds to the melting point.

Figure 2:

Areas of bands were taken as intensities. Arrows correspond to phase transitions, the one at higher temperature being the melting point. Half-widths of bands also show similar variations except that they increase with temperature.

Figure 3:

Half-widths of bands also show similar changes except that they increase with temperature.

Page 218, last but one line: in the phase should be read as in the α phase.

Vibrational Spectroscopy of Compounds with Very Short Hydrogen Bonds. The Aqueous Bisformate Ion. Comparison with Two Solid Salts, and Some Comments on Broad OH Absorption Continua [*Croat. Chem. Acta* **55** (1982) 249—269] by E. Spinner

Page 252, Table I, last line but one left-hand-side entry: N OH *ip be* should read N OH *op be.*

Page 256, 4th paragraph second sentence should read: There is no mixed species $(HCO_2)\,(DCO_2)H^-$ in which the formate moieties are chemically identical.

Page 258, 3rd paragraph last line should read: for $_{aq}(DCO_2)_2H^-$; an op be band of $_{aq}(HCO_2)_2H^-$ may be inverted.

Page 262, equations (5), (6) and (6') should read:

$$\Delta E \cdot t_{ex} \geqslant h/4\pi \tag{5}$$

$$_{abs}\nu_p \cdot t_{ex} \geqslant 1/4\pi \tag{6}$$

$$_{abs}\nu_p \cdot t_{ex} = {}_{abs}\nu'_v \cdot t_{ex} \simeq 1 \tag{6'}$$

Page 264, line 13: $\nu_3 = 1$ should read $\nu_1 = 1$.

PRIKAZI KNJIGA [*Croat. Chem. Acta* **55** No. 3 (1982)]

Stranica *A4* red 22. odozgo: umjesto VELIMIR PRAVDIĆ treba pisati S. VUK-PAVLOVIĆ.

Stranica *A6* red 11. odozgo: umjesto VUK-PAVLOVIĆ treba pisati VELIMIR PRAVDIĆ.
