

## EDITORIAL

This issue of *Croatica Chemica Acta*, the journal of the Croatian Chemical Society, is a Festschrift dedicated to Professor Nikola Kallay on the occasion of his 65th birthday. When I was appointed Guest Editor, I was aware of all of the difficulties that go along with editing such an extensive issue, but on the other hand, I felt honored to have the opportunity to be the editor of this very special issue and to be able to collaborate with the significant number of distinguished scientists from all over the world who would be contributing to this Festschrift.

On behalf of the entire Editorial Board of *Croatica Chemica Acta*, I would like to thank all of the authors and reviewers for their contributions. It has truly been a privilege to collaborate with every one of them. Finally, I would like to say this in the name of all of us:

Happy Birthday Professor Kallay!

*Davor Kovačević*  
Guest Editor
