*Radovi Internacionalne Ljetne škole  
Kemija međupovršina između faza kruto/tekuće  
Dubrovnik - Cavtat, 23. lipnja—4. srpnja 1969.*

<b>Opći uvod</b>	...	...
<b>B. Težak:</b> Međupovršine između faza kruto/tekuće	...	81
<i>Predavanja</i>		
<b>Sekcija I: Međupovršinske strukture (statika)</b>	...	
<b>R. H. Doremus:</b> Potencijali ionski-specifičnih elektroda	...	111
<b>L. Gierst, E. Nicolas i L. Tytgat-Vandenberghen:</b> Proučavanja dvosloja upotrebom depolarizatora — novi pogledi	...	117
<b>Sekcija II: Spontani međupovršinski procesi (dinamika)</b>	...	
<b>E. D. Goddard:</b> Specifični efekti protuionia u površinskoj i koloidnoj kemiji. Ionizirani monoslojevi	...	143
<b>J. Lyklema:</b> Liotropni niz u stabilnosti hidrofobnih koloida	...	151
<b>M. Mirnik:</b> Teorija ionske zamjene koagulacije i njena eksperimentalna verifikacija	...	161
<b>G. D. Parfitt:</b> Stabilnost disperzija u nevodenim medijima	...	215
<b>W. Stumm, C. P. Huang i S. R. Jenkins:</b> Specifične kemijske interakcije koje utječu na stabilnost disperznih sistema	...	223
<b>A. C. Zettlemoyer i F. J. Micale:</b> Adsorpcija iz otopina	...	247
<b>Sekcija III: Inducirani međupovršinski procesi (Elektrokemija)</b>	...	
<b>A. R. Despić:</b> Neki problemi elektrokristalizacije metala	...	265
<b>R. Parsons:</b> Koeficijent prijenosa u elektrodnim reakcijama	...	281
<b>Sekcija IV: Kompleksni fenomeni. Međupovršinske strukture i stvaranje novih faza</b>	...	
<b>R. H. Doremus:</b> Taloženje i rast kristala iz otopina	...	293
<b>G. H. Nancollas:</b> Termodinamika stvaranja metalnih kompleksa i ionskih parova u otopinama	...	299
<b>G. H. Nancollas:</b> Kinetika rasta primarnih kristala u vodenoj otopini	...	311
<b>A. E. Nielsen:</b> Taloženje	...	319
<b>A. Peterlin:</b> Granica faza kristalno/amorfno u polimernim kristalima	...	335
<b>B. Težak:</b> Metorika precipitacije iz elektrolitnih otopina kako se otkriva iz kinetike stvaranja krute faze u relaciji prema koncentracionim faktorima	...	351
<b>A. G. Walton:</b> Nukleacija i kristalizacija polimera i biopolimera	...	363
<i>Izvodi predavanja, koja nisu u cjelini tiskana (17 naslova)</i>	...	369

## CHEMICA ACTA

*Croat. Chem. Acta* 42 (1970) No. 2

Zagreb, Yugoslavia

20.08.1970.

## CONTENTS

*Proceedings of the International Summer School on the  
Chemistry of Solid/Liquid Interfaces*

Dubrovnik - Cavtat, June 23—July 4, 1969

## General Introduction

B. Težak: Solid/Liquid Interfaces . . . . .	81
---------------------------------------------	----

Section I: Interface Structures (Statics) Conference Papers

R. H. Doremus: Potentials in Ion-specific Electrodes . . . . .	111
L. Gierst, E. Nicolas, and L. Tytgat-Vandenberghen: Double Layer Studies using Depolarizers as Probe — A Reassessment . . . . .	117

## Section II: Autonomous Interface Processes (Dynamics)

E. D. Goddard: Specific Counterion Effects in Surface and Colloid Chemistry. Ionized Monolayers . . . . .	143
J. Lyklema: The Lyotropic Sequence in the Stability of Hydrophobic Colloids . . . . .	151

M. Mirnik: Ion Exchange Theory of Coagulation and its Experimental Verification . . . . .	161
-------------------------------------------------------------------------------------------	-----

G. D. Parfitt: The Stability of Dispersions in Non-Aqueous Media . . . . .	215
----------------------------------------------------------------------------	-----

W. Stumm, C. P. Huang, and S. R. Jenkins: Specific Chemical Interaction Affecting the Stability of Dispersed Systems . . . . .	223
--------------------------------------------------------------------------------------------------------------------------------	-----

A. C. Zettlemoyer and F. J. Micale: Adsorption from Solution . . . . .	247
------------------------------------------------------------------------	-----

## Section III: Induced Interface Processes (Electrochemistry)

A. R. Despić: Some Problems of Electrocrysallisation of Metals . . . . .	265
R. Parsons: The Transfer Coefficient in Electrode Reactions . . . . .	281

## Section IV: Complex Phenomena. Interface Structure and the Formation of New Phases

R. H. Doremus: Precipitation and Crystal Growth from Solution . . . . .	293
G. H. Nancollas: The Thermodynamics of Formation of Metal Complexes and Ion-Pairs in Solution . . . . .	299

(Continued on inside back cover)
