

RIJEČ UREDNIKA

Poštovane čitateljice i poštovani čitatelji,

Sa zadovoljstvom vam predstavljamo novi broj časopisa *Bosniaca*, njegovo 23. izdanje, koje predstavlja još jedan važan izvor informacija iz svijeta bibliotekarstva, nauke i kulturne baštine.

U ovome broju, s posebnim zadovoljstvom, najavljujemo 13 radova, iz oblasti bibliotečko-informacijskog sistema, dokumentarnog naslijeđa, informacija i servisa u novom tehnološkom okruženju. Osim radova, tu su i četiri prikaza, od kojih se neki bave i učešćem Nacionalne i univerzitetske biblioteke BiH u međunarodnim projektima i radionicama.

Dio posvećen bibliotečko-informacijskom sistemu objedinjuje radove koji su po svojoj strukturi veoma raznoliki i bave se različitim temama, od problema organizacije i identifikacije neomeđene građe, preko analize sentimentata u percepciji biblioteka, zatim metapodataka za objekte učenja do standardizacije za informacijsku i bibliotečku djelatnost.

Kada je u pitanju dokumentarno naslijeđe, čitatelji imaju priliku steći uvid u bibliografiju radova Silvija Strahimira Kranjčevića čiji se Arhiv rukopisa nalazi u NUBBIH te izdavačku djelatnost Gradske biblioteke Kotor. Osim toga, u ovom bloku donosimo rad iz kulturne baštine BiH s osvrtom na zbirke koje se čuvaju u Zemaljskom muzeju BiH.

U bloku Informacije i servisi u novom tehnološkom okruženju dotičemo se standarda za zaštitu i bezbjednost informacija ISO 27001. Dio sadržaja je i rad na temu usluga u bibliotečko-informacionom sistemu Univerziteta u Sarajevu. Također, tu je i rad na temu Virtualna biblioteka Bosne i Hercegovine (VIBBIH), Kooperativni online bibliografski sistem i servisi Bosne i Hercegovine (COBISS.BH).

U posljednjem bloku Prikazi i prilozi čitatelji ćete o međunarodnom projektu DARIAH mreže, Sedmoj konferenciji direktora nacionalnih biblioteka Jugoistočne Europe i radionici na temu digitalizacije. Tu se nalazi i prikaz radionice "IFLA Global Vision Workshop" te izvještaj o Edukaciji bibliotekara i stručnim ispitima u 2018. godini. Na samom kraju dat je prikaz knjige *Muzeji i grad: prikrivena muzeologija u globalnoj politici i ekonomiji* Mirze Hasana Čemana.

FOREWORD BY THE EDITOR-IN CHIEF

Dear Readers,

With pleasure, we present you new issue of *Bosniaca*, its 23rd edition, which represents important source of information from the world of library science, science and cultural heritage.

In this issue, with special pleasure, we announce 13 papers in the area of the library-information system, documentary heritage, information and services in the new technological environment.

In addition to the papers, there are also four reviews, some of which deal with the participation of the National and University Library of B&H in international projects and workshops.

The part dedicated to the library-information system combines papers that are very diverse in their structure and deal with different themes, from the problems of organization and identification of continuing resources, through sentiment analysis in the context of library brand perception, metadata for learning objects to standardization for information and library activities.

When it comes to the documentary heritage, readers have the opportunity to gain insight into the bibliography of Silvija Strahimir Kranjčević's works, whose Manuscript archive is in the NULB&H and the publishing activity of the Kotor City Library.

In addition, in this section, we bring the paper in the cultural heritage of Bosnia and Herzegovina with a review of the collections that are kept in the National Museum of B&H.

In the Information and services in the new technological environment section, we address the ISO 27001 standard for protection and security of information. Part of the content is also paper with the theme on services in the library-information system of the University of Sarajevo. Also, there is paper on the Virtual Library of Bosnia and Herzegovina (VIBBIH), the Cooperative Online Bibliographic System and Services of Bosnia and Herzegovina (COBISS.BH).

In the last section, you will read about the international project DARIAH Network, the Seventh Conference of National Library Directors of Southeast Europe and the workshop on digitalization. There is also a review of the workshop "IFLA Global Vision Workshop" and a report

Vjerujemo da će predstavljene teme u ovom broju časopisa *Bosniaca* privući pažnju stručne bibliotečke javnosti, kao i opravdati važnost postojanja jednog ovakvog časopisa, koji je od 2018. godine prihvaćen za indeksiranje u bazu Emerging Sources Citation Index (ESCI), koja je dio platforme Web of Science™.

on the education of librarians and professional exams in 2018. At the very end, the book review *Muzeji i grad: prikrivena muzeologija u globalnoj politici i ekonomiji* (Museums and the City: the hidden museology in the global politics and economy) by Mirza Hasan Čeman is presented. We believe that the themes presented in this issue of *Bosniaca* will draw the attention of the professional library public as well as justify the importance of the existence of such journal, which has been accepted for indexing in 2018 in the Emerging Sources Citation Index (ESCI), which is a part of the Web of Science™ platform.
