

CroEcho2019

CroEcho2019 trodnevni je kongres usmjeren na sadržaje od najvećeg interesa za kardiologe i buduće kardiologe, posvećene ehokardiografiji i kliničkom odlučivanju.

U središtu su kongresa zanimljive kardiološke teme u kojima ehokardiografija ima središnju ulogu u kliničkom odlučivanju, kao i klinički scenariji u kojima su pak potrebni svrsishodan izbor i klinička interpretacija više slikovnih metoda pri donošenju kliničke odluke.

Program čine plenarna predavanja, znanstvena priopćenja, ehokardiografski tečaj te interaktivni edukativni sadržaji (slikovne radionice, praktični rad s mentorom, virtualne vježbonice)

Kongres organizira Radna skupina za ehokardiografiju i slikovne metode u kardiologiji Hrvatskoga kardiološkog društva, uz potporu Europskoga udruženja za kardiovaskularno oslikavanje.

Veselimo se ponovnom susretu u Poreču!

Predsjednici kongresa: / Congress Directors:

Jadranka Šeparović Hanževački and Viktor Peršić

CroEcho2019 is a three-day congress aimed at offering content for cardiologists and cardiology fellows dedicated to echocardiography and clinical decision-making.

CroEcho2019 will focus on interesting cardiology topics from the area of clinical decision-making where echocardiography plays a central role. We will focus on tackling clinical scenarios, in which the making of a purposeful choice and the clinical interpretation of several imaging methods is of utmost importance.

The program is composed of plenary lectures, scientific oral presentations, a teaching course, and interactive educational content (imaging workshops, practical work with a mentor, virtual practice).

CroEcho2019 is organized by the Working Group on Echocardiography and Cardiac Imaging Modalities of the Croatian Cardiac Society and is endorsed by the European Association of Cardiovascular Imaging (EACVI).

We look forward to welcoming you in Poreč!
