

The 3rd ISPRS Student Consortium Summer School

Nanjing, China
June 26th to July 1st, 2008

The 3rd ISPRS Summer School will be held in June in Nanjing, China. Nanjing is a historic city which has a beautiful scenery. Anyone who is interested in GIS, RS, photogrammetry, 3D-visualization and other related fields is welcomed.

Famous scholars and experts will give interesting speeches enclosed to the topic of "Acquisition, processing and representation of three-dimensional geospatial information". The lectures will be helpful and it's a great chance for participants to communicate with researchers dedicated to the same fields and make universal friends.

Nanjing Normal University, ISPRS and other donators will support most of the fee generated by round-trip train tickets to Beijing, three-daily-meals and accommodation of each participant. The registration fee is 1200RMB (1000RMB each, registered before Jan 30th) covering tuition, learning materials, meals and accommodation expense, excursion and social activities.
