A BIBLIOGRAPHY OF WORKS ABOUT HERZEGOVINA AND BOSNIA (SINCE THE FALL UNDER TURKISH REIGN TO THE END OF THE 18. CENTURY)

Abstract

In this article the author gives a list of works dealing with events and occasions in Herzegovina and Bosnia in the early Modern age. The works are divided into several thematical units: the organization and structure of Ottoman government and society, military and political history, social circumstances – migrations and the position of the population, economic circumstances, religious circumstances, urban settlements and cultural history. The works, whose includement in one of these groups was problematic, were put under a separate unit named „Other“.
