

U POVODU SMRTI

**Dr.sc. Mile Bogovića,  
gospićko-senjskog biskupa u miru i člana Hrvatskog komunikološkog  
društva**

Poštovani biskupe Petanjak,

vijest o smrti dr. Mile Bogovića, gospićko-senjskog biskupa u miru, silno me pogodila i ražalostila.

Svjestan sam da je Riječka metropolija i Crkva u Hrvata izgubila velikog biskupa, ali osobno sam izgubio velikog, dragog i poštovanog prijatelja. Nesebično mi je pomogao u svladavanju povijesti hrvatskog glagoljskog tiskarstva. Bez njegove nesebične pomoći, ne bih bio u stanju objaviti knjigu "Riječka zvijezda Gutenbergove galaksije".

Odlučno i hrabro je zastupao i branio povijesne istine, osobito iz novije hrvatske povijesti. Bio je ugledan biskup, profesor na Bogosloviji i znanstvenik, ponosan što je u mladosti bio suradnik akademika Branka Fučića, Vašeg velikog Bodula, strastvenog istraživača glagoljske povijesti Kvarnerskih otoka, Primorja, Istre, Like i drugih krajeva.

Dobro mi je poznato, da je biskup Bogović Vas osobno, poštovani preuzvišeni biskupe Ivice Petanjak, visoko cijenio. Da je izražavao želju da ga na biskupskoj stolici gospićko-senjske biskupije naslijedi netko poput Vas.

Iza biskupa Bogovića ostaje velika praznina. Ipak, ostaje veliko djelo trajne važnosti i vrijednosti.

Osjetio sam potrebu da Vam se u povodu žalosne vijesti obratim s nekolikom rečenica, znajući da ste biskupa Bogovića visoko cijenili i poštovali te da dijelimo tugu zbog njegova odlaska s ovoga svijeta.

Duboko sam se nadao da će savladati opaku bolest.

S poštovanjem,

Stanko Škrbec, publicist iz Rijeke

From this moment on

**2020**

will be known as the year a global pandemic reshaped our world.

Taking over one million lives in just a few months.

Disrupting economies. People staying apart, to stand together.

So how we act now is critically important.

As communication professionals and researchers

From every continent on this planet,

We hereby make a statement of clear intent; a commitment.

*We commit*

To work jointly and put our full energy into bringing people together

To make a healthier world possible towards a harmonious shift to a viable, better future.

As the virus spread South and North,

Entrenched inequalities have been brought to the fore,

Taking its highest toll on the most disadvantaged,

Sowing hunger and distress.

As imposed isolation swept everywhere,

Our cities and metropolises turning into ghost towns,

This pandemic revealed a planet so intensely ravaged and fragile

That, from all corners of the Earth,

An urgent need for unified measures has emerged.

In the face of this pandemic, climate emergency and future threats

*We commit*

To shoulder our responsibility through information and communications,

To call for equal protection for all,

Strongly affirming that everyone deserves the same protection

Regardless of race, origin, gender, group or status.
