International Journal of Fundamental and Applied Kinesiology

Vol. 53(2021) No.1 (1-182)

Contents

Uroš Mohorič, Marko Šibila, Boro Štrumbelj

*(Original scientific article)***Positional differences in some physiological parameters obtained by the incremental field endurance test among elite handball players 3-11**

Marko Perić, Nicholas Wise, Reza Heydari, Mohammad Keshtidar, Janez Mekinc

*(Original scientific article)***Getting back to the event: Covid-19, attendance and perceived importance of protective measures 12-19**

Leonardo De Lucca, Fernando Roberto de Oliveira, Carl Foster, Lorival José Carminatti

*(Original scientific article)***Talk test: A simple alternative to identify lactate thresholds during progressive cycling exercise 20-27**

Filipe Manuel Clemente, Sarah G.T. Bredt, Gibson Praça, André Gustavo Pereira de Andrade, Rita Sanches, Carlos Filipe Moleiro, Ricardo Lima

*(Original scientific article)***Basketball small-sided games: Effects of varying formats and using successive bouts 28-36**

Robert Bezjak, Saša Cecić Erpič

*(Original scientific article)***The relationship between actual and self-perceived physical fitness in adolescence 37-46**

Juan Antonio Moreno-Murcia, Elisa Huéscar Hernández, Paulette Joseph

*(Original scientific article)***Human flourishing and physical self-concept in physically active women 47-55**

Asier Los Arcos, Asier Gonzalez-Artetxe

*(Original scientific article)***Physical fitness performance, playing position and competitive level attained by elite junior soccer players: A 12-year study 56-64**

Güney Çetinkaya, Mehmet Ali Özçelik

*(Original scientific article)***Death anxiety in outdoor-adventure recreation: Study of demographic variables and experience 65-70**

Alireza Rabbani, Del P. Wong, Filipe Manuel Clemente, Mehdi Kargarfard

*(Original scientific article)***Internal training load and fitness profile between adult team versus junior team soccer players 71-77**

Erkan Akdoğan, İlker Yılmaz, Yusuf Köklü, Utku Alemdaroğlu, Ali Onur Cerrah (<i>Original scientific article</i>) The effect of isolated or combined small-sided games and speed endurance training on physical performance parameters in young soccer players	78-85
Gareth Nicholson, Dario Masini (<i>Original scientific article</i>) Bilateral deficit: Relationships with training history and functional performance	86-94
Ziemowit Bańkosz, Tadeusz Stefaniak (<i>Original scientific article</i>) Elbow joint position and hand pressure force sense under conditions of quick reaction in table tennis players	95-103
Paula Biscaia, Eduarda Coelho, Paulo Vicente João, Diogo Monteiro, António Hernandez-Mendo, José Alves (<i>Original scientific article</i>) Which cognitive and perceptual skills best discriminate elite female handball players	104-112
Cristino J. A. Matias, Jara González-Silva, M. Perla Moreno, Pablo J. Greco (<i>Original scientific article</i>) Performance analysis of U19 male and female setters in the Brazilian volleyball champion teams	113-121
Tuncay Alparslan, Ramiz Arabaci, Recep Gorgulu (<i>Original scientific article</i>) Non-invasive assessment of short and ultra-short heart rate variability during different physical and physiological tests	122-130
Tihana Nemčić, Julio Calleja-González (<i>Review</i>) Evidence-based recovery strategies in futsal: A narrative review	131-140
Murat Emirzeoğlu, Tüzün Fırat, Özlem Ülger (<i>Review</i>) The effects of eccentric training on hamstring muscle architecture: A systematic review	141-153
Alejandro Sánchez-Pay, José Antonio Ortega-Soto, Bernardino J. Sánchez-Alcaraz (<i>Original scientific article</i>) Notational analysis in female grand slam tennis competitions	154-161
Matilda Šola, Cvita Gregov (<i>Original scientific article</i>) Injury epidemiology in the first Croatian basketball league	162-171
Željka Jaklinović-Fressl, Dragan Milanović (<i>Editor's note</i>) Marking the Golden Anniversary of Kinesiology – some highlights from an editorial point of view	172-176
Guidelines for contributors	177-182
