

SOME OF WELL KNOWN MARIAN SANCTUARIES IN CROATIA: THE HONORING OF THE PRINCIPAL PICTURES/ICONS AND STATUES

Eduard Pavlović

*Retired psychiatrist and regular member of Croatian Association of Fine Artists in Zadar (HDLU),
Zadar, Croatia*

Background: Croatian people are devoted to Virgin Mary since olden times-there are 1162 religious objects/buildings and 8 cathedrals dedicated to honoured Holy Mary.

The aim is to see how the principal pictures/icons and statues were honored.

Objects and Methods: Registration of Famous Marian Shrines in Croatia and analysis of the most common places of honoring.

Results: There are 17 popular Marian shrines in Croatia that are observed. The pictures/icons are mostly honored in 59% of the popular Marian shrines in Croatia (mostly in Dalmatia -5 and in Slavonia - 3, it is about 47% of all major places of honoring) as opposed to the statues which are mostly honored in 41% of the popular Marian shrines in Croatia (somewhat more often in Dalmatia and in Zagorje - by 2, or 24% of all major places).

Discussion / Instead of a conclusion: It is to be expected that Croatian believers are committed to the Mother of God yearning for help and protection by praying more in front of her icons than in front of her statues.

POZNATIJA MARIJANSKA SVETIŠTA U HRVATSKOJ: ČAŠĆENJA GLAVNIH SLIKA/IKONA I KIPOVA

Pozadina: Djevici Mariji se hrvatski narod utječe od davnina. Njoj u čast i slavu posvećeno je 1162 vjerska objekta i 8 katedrala.

Cilj: Vidjeti čašćenja glavnih slika/ikona odnosno kipova u poznatijim marijanskim svetištima u Hrvatskoj.

Objekti i metode: Registracija poznatijih marijanskih svetišta u Hrvatskoj i analiza u njima najčešćih mjesta čašćenja.

Rezultati: Registrira se 17 poznatijih marijanskih svetišta u Hrvatskoj; slike se uglavnom najčešće časte u 59 % poznatijih marijanskih svetišta u Hrvatskoj (najčešće u Dalmaciji -5 i u Slavoniji - 3 tj. 47 % od svih glavnih čašćenja) za razliku od kipova koji se uglavnom najčešće časte u 41 % poznatijih marijanskih svetišta u Hrvatskoj (nešto češće u Dalmaciji i u Hrvatskom zagorju - po 2 tj. 24 % od svih glavnih čašćenja).

Rasprava / Umjesto zaključka: Predmnijevati je da se hrvatski vjernički puk rado utječe pomoći i zaštiti Majke Božje i to nešto više moleći se pred njezinim slikama / ikonama nego pred kipovima Njoj posvećenim u poznatijim marijanskim svetištima u Hrvatskoj.

CONTINUOUS TREATMENT OF PSYCHIATRIC PATIENT WITH DEPRESSION-SUCCESS FOR LONGER REMISSION

Olivera Bundaleska & Maja Spirova

Gerontology Institute, Skopje, Republic of Macedonia

Objective: To show that the lengthy and time taking the therapy in psychiatric patient in geriatrics conditions leads to a long phase of remission. Show case: patient building due to lethargy, indifference to the environment and themselves refusing to take food and disturbed sleep. This patient came in our hospital because of worsened psychiatric condition: lethargy, depressions ideas, suspicions, hearing voices, insomnia, neglect of personal hygiene.

Many years on many occasions treated in hospital with mental stages and remission and actuals, especially living alone and no one to take account and whether receiving regular therapy.

Methods: Pharmacotherapy, surveillance, calls behavioral cognitive therapy, family therapy and social clubs. The patient was treated primary by a multidisciplinary team of psychiatrist, psychologist, social worker and specialist of internal medicine.

During the ten years under the influence of antidepressants and therapy neuroleptics, the patient does not appear on the new attack of the depression disorder. Under the regular supervision of a team of nurses and doctors who closely observed every psychological change and regular treatment of therapy, the patient was ten years of proper psychological plan.
