

8. kongres Hrvatske udruge kardioloških medicinskih sestara

8th Congress of the Croatian Association of Cardiology Nurses

Poštovani kolegice i kolege,

osobita nam je čast i zadovoljstvo pozdraviti vas na 8. kongresu Hrvatske udruge kardioloških medicinskih sestara (HUKMS) s međunarodnim sudjelovanjem. Tijekom iduća tri dana, u kojima će se prikazivati kongresni sadržaji, nastojali smo obuhvatiti sve aktualne teme i izazove u današnjoj kardiološkoj sestrinskoj praksi. Program čine tematske sesije i simpoziji radnih skupina *Hrvatske udruge kardioloških medicinskih sestara (HUKMS)*.

Kao i na prethodnim kongresima, dio će programa uključiti usmena izlaganja i prikaze zanimljivih slučajeva iz svakodnevne kliničke prakse koji će nas voditi kroz stručni rad sudionika.

Budući da je iza nas 18 mjeseci u kojima su se naš život i uvjeti pružanja zdravstvene skrbi odigrali u znatno promijenjenim uvjetima zbog pandemije bolesti COVID-19, dio programa posvećen je skrbi za kardiološke bolesnike u pandemiji.

Zahvaljujemo našim sponzorima koji su putem simpozija omogućili nove spoznaje iz svjetske kardiološke prakse. Također zahvaljujemo našem tehničkom organizatoru tvrtki „Spektar“. Vjerujemo da će vrijeme nakon predavanja biti ispunjeno konstruktivnim raspravama koje će potaknuti kritička promišljanja te pridonijeti izgradnji profesionalne izvrsnosti!

Predsjednici kongresa: / *Congress Presidents:*

Ana Ljubas, mag. med. techn., FESC

Ivica Benko, dipl. med. techn., ECDSAP

dr. sc. **Ivica Matić**, mag. med. techn.

Dear Colleagues,

it is our great honor and pleasure to welcome you at the 8th congress of the Croatian Association of Cardiology Nurses (CACN) with international participation.

Over the course of the next three days of the congress, we have tried to cover all current topics and challenges in cardiovascular nursing practice. The congress program consists of thematic sessions and symposia of the Croatian Association of Cardiology Nurses working groups.

As in previous congresses, part of the program will include oral presentations and interesting case reports from everyday clinical practice that will guide us through the professional work of congress participants.

Since our lives and provision of healthcare services have been taking place under significantly changed conditions over the past 18 months due to the COVID-19 pandemic, part of the program is dedicated to caring for cardiac patients during the pandemic.

We would like to thank our sponsors, who have enabled to acquire new knowledge on cardiovascular nursing through the congress symposia. We would also like to thank the Spektar Agency for providing technical assistance.

We are sure that the time after the presentations will be filled with constructive discussions that will encourage critical thinking and contribute to building professional excellence!
