

IZ STRANIH ČASOPISA**Allgemeine Vermessungs-Nachrichten, Vol.111, No.7, 2004.**

- Zum Neuordnungsauftrag der Flächenverfahren nach S. 56 des Landeswirtschaftsanpassungsgesetzes (LwAnpG). K.-H. Thiemann. 242.-247.
- Performanzaspekte bei Delaunay-Triangulationen und Laufzeitvergleiche. U. Lenk. 248.-258.
- Interoperabilität auf der Basis von OpenGIS-WEB-Services. P. Willkomm. 259.-263.
- Mehrdimensionale Beobachtungstests bei Gauss-Helmert-Modellen. S. Kupferer. 264.-269.
- Zur numerischen Berechnung der ebenen Helmert-Transformation bei unterschiedlichen Massstabsfaktoren. H. Spath. 270.-272.
- Zur numerischen Berechnung der Tragheitsgeraden und der Tragheitsebene. H. Spath. 273.-275.
- Kommentar zur Veröffentlichung. L. Lenzmann, E. Lenzmann. 276.-277.

Geomatics Info Magazine, Vol.18, No.8, 2004.

- Modernising Cadastre by Private / Public Partnership: Improving Government Services in Atlantic Canada. E. Quinton, R. DeVet, G. Mulholland. 12.-Radical Redesign of Workflows: Ethiopian Mapping Authority Responds and Competes. B. Kelete, W. de Vries. 28.-
- Fusing Optical and Radar Microwave Images: Improving Land-use/Cover Classification in Mexico. J. Soria-Ruiz, Y. Fernandez-Ordóñez. 33.-
- Mapping the Neighbourhood: An Indian Initiative in Geospatial Democracy. R. Mallick. 40.-
- United Nations GeoNetwork: FAO Spatial Information Infrastructure. J. U. Hielkema, J. Ticheler. 48.-
- Using RS and GIS in Uzbekistan: Natural Resources Management Applications. A. D. Krutikov, R. R. Saidov, S.K. Yakubov. 60.-
- "On Your Marks!": Layout of Athens 2004 Olympic Running Tracks. H. Key. 68.-

Journal of Geodesy, Vol.77, No.12, 2004.

- Site-specific multipath characteristics of global IGS and CORS GPS sites. K. -D. Park, R. S. Nerem, M. S. Schenewerk, J. L. Davis. 799.-803.
- The ellipsoidal corrections to the topographic geoid effects. L.E. Sjoberg. 804.-808.
- Impact of GPS satellite and pseudolite geometry on structural deformation monitoring: analytical and empirical studies. X. Meng, G. W. Roberts, A. H. Dodson, E. Cosser, J. Barnes, C. Rizos. 809.-822.
- A new strategy for the atmospheric gravity effect in gravimetric geoid determination. H. Nahavandchi. 823.-828.
- Improved harmonic development of the Earth tide-generating potential. S. M. Kudryavtsev. 829.-838.

Journal of Surveying Engineering, Vol.130, No.3, 2004.

- Variance Factor Estimation for Two-Step Analysis of Deformation Networks. G. Even-Tzur. 113.-118.
- New Solutions to Optimum Vertical Curve Problem. W. C. Hu, F. Tan, A. Barnes. 119.-125.
- Application of Total Least Squares for Spatial Point Process Analysis. Y.A. Felus. 126.-133.
- Accuracy of Elevation Reduction Factor. E. F. Burkholder. 134.-137.
- Figure Condition in Datum Transformation. H. S. Kutoglu. 138.-141.
- Accuracy Assessment of Interstate Highway Length Using Digital Elevation Model. W. Rasdorf, H. Cai, C. Tilley, S. Brun, F. Robson. 142.-150.

Survey Review, Vol.37, No.293, July, 2004.

- OSTN02: A new definitive transformation from GPS derived coordinates to national grid coordinates in Great Britain. M. Greaves. 502.-519.
- Investigation of the roughness of the Australian gravity field using statistical, graphical, fractal and Fourier power spectrum techniques. K. Zhang, W. E. Featherstone. 520.-530.
- An empirical method of estimation of the variance-covariance matrix in GPS network design. M. Gatti. 531.-541.
- A case study on the establishment of shoreline position. A. K. Chong. 542.-551.
- A new method for second order design of geodetic networks: aiming at high reliability. A. R. Amiri-Simkooei. 552.-560.
- Determination of the azimuth with solar observations without any particular astronomical knowledge and spherical trigonometry. L. Sinapi, A. Vassallo. 561.-567.
- Testing a multiple reference station GPS network for real-time carrier-phase-based positioning in the Marmara region, Turkey. U. Dogan, P. Alves, G. Lachapelle, S. Ergintav. 568.-576.
- Semi-automatic determination of the parallelism of the rollers in the aluminium factory TLM-Sibenik. N. Solaric, Z. Versic, Barkovic. 577.-588.

Zeitschrift fur Geodasie, Geoinformation und Landmanagement, Vol.129, No.4, 2004.

- Die geodatische VLBI in Deutschland. A. Nothnagel, W. Schluter, H. Seeger. 219.-226.
- Reformierter Diplomstudiengang "Geodasie und Geoinformatik" an der Universitat Hannover. F. Friesecke, Jurgen Muller. 227.-234.
- Temperaturabhangigkeit der Kreismessungen mit einem GYROMAT 2000. W. Lienhart, F. K. Brunner. 235.-241.
- Perspektiven fur den Globus – welche Zukunft liegt vor uns (Teil 2). F. J. Radermacher. 242.-248.
- Increasing Reliability of the F-Test in the Gauss-Markov Model when Outliers are Small. S. Hekimoglu. 249.-254.
- A Numerical Method for Determining the Spatial HELMERT Transformation in the Case of Different Scale Factors. H. Spath. 255.-257.
- Zur geometrischen Interpretation und direkten Bestimmung von Formfunktionen. J. Boljen. 258.-260.
- Das vereinfachte Flurbereinungsverfahren zur Landentwicklung nach S 86 FlurbG – Anwendungsvoraussetzungen und Sondervorschriften. K. -H. Thiemann. 261.-265.
- Hochprazise Neigungsmessung mit dem elektronischen Pendelneigungssensor HRTM. C. Hirt, T. Kahlmann. 266.-276.
