

## PRIZNANJE HRVATSKOM METALURŠKOM DRUŠTVU (HMD) ZA USPJEŠNO POSLOVANJE

### CERTIFICATE TO CROATIAN METALLURGICAL SOCIETY (CMS) FOR SUCCESSFUL BUSINES

Review – Prikaz

Hrvatsko metalurško društvo, utemeljeno je iz Društva inženjera i tehničara Željezare Sisak (DITŽS) – 1952. god., i Društva metalurških, rudarskih i geoloških inženjera i tehničara Sisak (DMRGIT Sisak) 1978. god., te odgovorno za razvitak i budućnost Hrvatske, a sa svrhom da se doprinos njenom napretku temelji na promicanju metalurgije.

Aktivnosti u nadležnosti Statuta, HMD je izuzetno uspješno provodio: od priznanja za dosege od srodnih svjetskih udruga što dokazuje suradnja preko 70-ak institucija iz 50-ak država, tisak i redovitost objavljivanja prestižnog znanstvenog časopisa Metalurgija, organizacija svjetskih simpozija „Materijali i metalurgija“ gdje se prijavi i do 689 referata itd.

Teškoće su u novčanoj podpori za djelatnost društva i posebno tisak časopisa. Do 1990. god. bivši SIZ – I (za znanost) dostavljao je podporu i do 50 000 DM godišnje za časopis Metalurgija. Tu treba dodati i podporu od jakog metalurškog kompleksa (npr. Željezara Sisak), posebice logističku podporu Instituta za metalurgiju Sisak i Metalurškog fakulteta (MF-a), do 1997. god.

Nažalost, glede rata u Hrvatskoj, dolazi do jakog urušavanja proizvodnje hrvatske metalurgije. Kolaps metalurške proizvodnje u Hrvatskoj, ima veliki utjecaj i na djelatnost HMD-a. Razumljivo od takovog gospodarstva nema nikakove podpore.

Ministarstvo znanosti i obrazovanja (MZO) glede teže financijske situacije u državi, smanjilo je podpore za tisak časopisa Metalurgija, i u 2022. god. bila samo 15 000 EUR-a, a za rad Društva 2 700 EUR-a, što je samo 10-15 % godišnje prihoda HMD-a.

Sve ove velike i izuzetno redovite aktivnosti (povezivanje, održavanje djelatnosti HMD-a, simpoziji, suradnja s velikim brojem znanstvenih i stručnih institucija u inozemstvu i tuzemstvu), članovi HMD-a posebice predsjednik I.Mamuzić kao i Urednički odbor časopisa, Upravni odbor i tajnik Društva, obnašaju bez stalnih zaposlanika na potpuno dragovoljačkom temelju tj. bez naknade ili honorara. Dokaz je i u podatku da od podizanja HMD-a na državnu razinu 1992. do sada 2022. nikada im nije isplaćen niti jedan honorar.

Na temelju uspješnosti financijskog poslovanja HMD-a, CompanyWall Busines, London, je već dva puta, 19.11.2020. god. te 14.11.2022. god. odala Priznanja HMD-u, uz **obrazloženje**:

Croatian Metallurgical Society is founded from Society of Engineers and Technicians of Steel works Sisak in 1952 y and Society of Metallurgical, Mining, Geological Engineers and Technicians Sisak (SMMGET) Sisak 1978 y and responsible for development and future of Croatia, with the purpose to base the contribution to its progress on promotion of metallurgy.

Activities within competence of the Statute of CMS were successfully performed by CMS: from acknowledgement for achievements by related world associations proven by cooperation with up to 70-odd Institutions from 50-odd states, printing and regular publishing of a prestigious scientific Journal Metalurgija, to organization of world symposiums „ Materials and Metallurgy“ where till 689 contributions are filed to be presented etc.

Financing of the Activity of Society and separately of the Journal remains a cause of concern. Until 1990 the former government agency for science SIZ – I was remitting subsidies in the amount of up to 50 000 German Marks for Metalurgija Journal. Add to it the support from the powerful metallurgic complex at that time (Sisak Steelworks, for example), especially the logistic support offered by the Sisak Institute of Metallurgy and Faculty of metallurgy (FM) until 1997 y. Unfortunately, the war in Croatia led to a collapse of metallurgical production in Croatia. The collapse of metallurgical production in Croatia have great the influence on the activity of the CMS. It goes without saying that from an industry like this you cannot expect any support.

Ministry of Science and Education (MSE) reduced its support to the Journal due to the financial situation in the support to the country (only = EUR 15 000 in 2022 y), are for activities of Society 2 700 EUR, what is only 10 – 15 % from income of CMS.

All of these comprehensive and extremely regular activities (connections, maintenance of the activity of CMS, symposiums, cooperation with a large number of scientific and professional institutions and companies abroad and in Croatia) are being performed by the members of CMS, especially the president I.Mamuzić, like Editorial Board of the Journal, management board the president and the secretary of Society without any permanent employees, on a completely voluntary basis i.e. without any compensation or honorarium. The evidence lies in a datum that since CMS was raised up
