

IZ STRANIH ČASOPISA

Allgemeine Vermessungs-Nachrichten, Vol.111, No.5, 2004.

- Verschiedene Ansätze zur Schätzung einer ausgleichenden Raumgeraden. S. Kupferer. 162.-170.
- A new solution method to process generalized nonlinear data in building of digital scientific engineering. H. Tao, C. Zhao, J. Guo. 171.-174.
- Leica System 1200: Auf dem Weg zur Sensorsynchronisation von GPS und TPS für kinematische Messaufgaben. W. Stempfhuber, T. Wunderlich. 175.-184.
- Wertermittlung von Auslandsimmobilien in der Kreditwirtschaft. R. Dippold. 185.-194.

Geodezja i Kartografia, Vol.52, No.3, 2003.

- PCA transformation as a method of compression of experiment results. J. Gil. 133.-142.
- Algorithm for rigorous adjustment of modular networks. T. Gargula. 143.-152.
- Estimation of the missing results of the surveys concerning a non-stationary post-mining dislocation field. W. Piwowarski. 153.-166.
- Spatial concentration – generalised measure of testing distribution of objects and spatial phenomena. K. Buczkowski. 167.-178.
- Colour progression scales balanced to constant depth colours. J. Jaroszewicz. 179.-188.

Geomatics Info Magazine, Vol.18, No.5, 2004

- A Cadastral Template: Worldwide Comparison of Cadastral Systems. D. Steudler, I.P. Williamson, A. Rajabifard. 12.-
- Radical Redesign of Workflows: Ethiopian Mapping Authority Responds and Competes. B. Kelete, W. de Vries. 28.-
- GPS Modernization: Impact on the Surveying Profession. B. Fosburgh, B. Peetz. 41.-
- GPS/GIS Solutions for Emergency Services: Locating Incidents Using Coordinates. S. Pedersen. 50.-
- An Ocean of Activity: GIS in the Island States of the South Pacific. J. Britton, M. Govorov. 60.-
- Volcanic Disaster Seen from Space: Understanding Eruptions Using Landsat-TM. H. Villegas. 68.-

Journal of Geophysical Research – Solid Earth, Vol.109, No.B3, 2004.

- Study of the atmospheric pressure loading signal in very long baseline interferometry observations. L. Petrov, J. -P. Boy. B03405.-
- Low-frequency excitation of length of day and polar motion by the atmosphere. O. de Viron, D. Salstein, C. Bizouard, L. Fernandez. B03408.-
- Geodetic effects of the ocean response to atmospheric forcing in an ocean general circulation model. O. de Viron, J. -P. Boy, H. Goosse. B03411.-
- Error analysis of continuous GPS position time series. S. D. P. Williams, Y. Bock, P. Fang, P. Jamason, R. M. Nikolaidis, L. Prawirodirdjo, M. Miller, D. J. Johnson. B03412.-

Journal of Surveying Engineering, Vol.130, No.2, 2004.

- Transforming Positions and Velocities between the International Terrestrial Reference Frame of 2000 and North American Datum of 1983. T. Soler, R. A. Snay. 49.-55.
- Geomatics Techniques for Structural Surveying. J. Mills, D. Barber. 56.-64.
- Integrating a Global Positioning System and Accelerometers to Monitor the Deflection of Bridges. G. W. Roberts, X. Meng, A. H. Dodson. 65.-72.
- Fitting Plane Curves to Three-Dimensional Points. A. Antonopoulos. 73.-78.
- Two-Prism Surveying Probe. S. Bourgon, R. Santerre, M. Boulianne. 79.-85.
- Single- and Multiepoch Analyses of Global Positioning System Baseline Network: Application to Coordinate and Velocity Determinations in Central Taiwan. C. Hwang, L. -H. Lee, S. -B. Yu, H. -Y. Chen. 86.-94.
- Analyzing the Impact of Integrating Pseudolite Observables into a GPS/INS System. H. K. Lee, J. Wang, C. Rizos, D. Grejner-Brzezinska. 95.-103.
- Application of Multipath Template Technique to Real-Time Ionospheric Delay Estimation Using Global Positioning System Measurements. L. -S. Lin. 104.-111.

Navigation, Vol.50, No.4, Winter, 2003-2004.

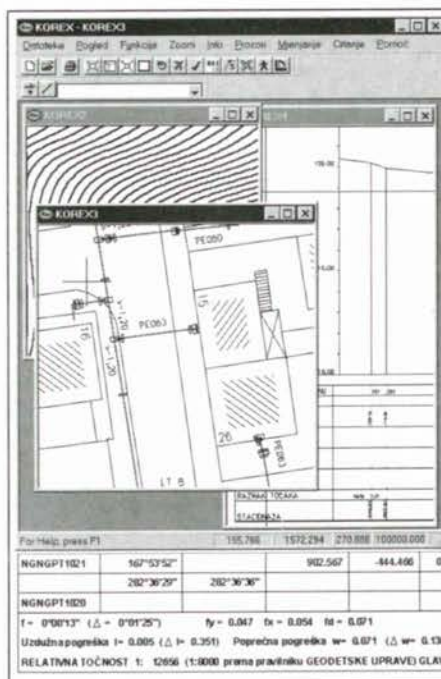

- Increased Navigation Performance From GPS Block IIR. W. Marquis. 219.-233.
- Ionospheric Scintillation Effects on GPS in the Equatorial and Auroral Regions. P. H. Doherty, S. H. Delay, C. E. Valladares, J. A. Klobuchar. 235.-245.
- An Inexpensive DME-Aided Dead Reckoning Navigator. D. Gebre-Egziabher, C. O. L. Boyce, J. D. Powell, P. Enge. 247.-263.
- RTK Performance in Highway and Racetrack Experiments. J. W. Sinko. 265.-275.
- Comparison of Interpolation Algorithms in Network-Based GPS Techniques. L. Dai, S. han, J. Wang, C. Rizos. 277.-293.
- A High-Integrity and Efficient GPS Integer Ambiguity Resolution Method. M. F. Abdel-Hafez, Y. J. Lee, W. R. Williamson, J. D. Wolfe, J. L. Speyer. 295.-310.

Survey Review, Vol.37, No.292, April, 2004.

- Improving positioning accuracy during kinematic DGPS outage periods using SINS/DGPS integration and SINS data de-noising. S. Nassar, A. Noureldin, N. El-Sheimy. 426.-438.
- Sensor fusion and integration using an adapted Kalman filter approach for modern navigation systems. G. Retscher, E. Mok. 439.-447.
- Terrestrial laser scanners with a narrow field of view: the effect on 3D resection solutions. S. J. Gordon, D. D. Lichti. 448.-468.
- Improving wellbore surveying accuracy of horizontal wells by utilizing a dual-axis gyro system. A. Noureldin, D. Irvine-Halliday, H. Tabler, M. P. Mintchev. 469.-489.
- Preliminary results of GPS studies for the January 2001 Gujarat earthquake. M. N. Kul-karni, S. Likhar, V. S. Tomar, P. Pillai. 490.-497.

Vlado Cetl

KORA 2000

Obrada geodetskih podataka

Unos mjerenih podataka preko tastature ili iz totalne stanice
 Računanje poligonskog vlaka, polara, ortogonala i nivelmana
 Računanje površine
 Ispisi formulara navedenih računanja
 Automatska raspodjela na planove i izrada standardnog opisa
 Transformacije
 Digitalizacija geodetskih planova digitalizatorom ili skeniranjem
 Crtanje: linije, simboli, tekstovi, krivulje, šrafure, padnice...
 Generiranje opisa vodova: šifre, visine, dubine, frontovi, ulice
 Generiranje uzdužnog i poprečnog profila
 Generiranje slojnica
 Crtanje na printerima i ploterima podržanim od W95 ili noviji
 Automatska izrada mreže prilikom crtanja
 GIS u kombinaciji sa podacima iz relacijskih baza
 Priprema ulaza za GIS sustave
 Uvoz i izvoz crteža u DXF formatu
