

Očekujem da će obje igre zbog svojih izrazitih prednosti, prije svega njihove kvalitete i korisnosti, biti prihvaćene u široj javnosti. Mogle bi biti zanimljive i turistima i strancima za edukaciju i kao izvorni hrvatski suvenir. Nepobitno je da je takvo i slično gradivo s prikladnim kartografskim prikazima potrebno svakoj državi pa tako i Hrvatskoj za njezinu promidžbu. Poželjno je podupirati takva i slična ostvarenja koja potiču didaktični pristup upoznavanja domovine kroz zabavu i igru. Očekujem uskoro daljnji razvitak tih igara, ali i pojavu novih u nizu *Upoznaj Hrvatsku*, u kojima će važno mjesto zauzimati različiti, kvalitetni kartografski prikazi primjereni zahtjevima korisnika.

Stanislav Frangeš
