

## Predgovor

Godine 1991. objavljena je *Bibliografija Geodetskog lista 1947–1990*, koja je obuhvatila sve što je napisano u Geodetskom listu u tom razdoblju. Ona je omogućila čitatelju da lako nađe sve što je o pojedinoj temi objavljeno u listu, ili pak sve naslove pojedinog autora, ili određeni članak nekog autora. Bibliografiju su priredili N. Frančula, M. Božićnik, N. Vučetić i S. Petrović.

Rad na prikupljanju i obradi članaka u bibliografskom stilu nastavio je u digitalnom obliku M. Lapaine. Jedina novost koju je uveo bila je da se uz godinu izdanja Geodetskog lista, osim stranica (od-do), čuva i broj lista u toj godini. To je provedeno u cijeloj bibliografiji. Razvrstavanje bibliografskih jedinica po disciplinama proveli su N. Frančula i M. Lapaine.

Na 20. sjednici Predsjedništva HGD-a odlučeno je da se konstituiraju Odbor za obilježavanje obljetnica u 2003. godini – 80 godina Geodetskog lista, 50 godina osnivanja SDGH-a, 30 godina od 1. susreta hrvatskih geodeta na Plitvičkim jezerima, 10 godina od osnivanja HGD-a, te 10. obljetnica osnivanja većine geodetskih udruga. Sastanak Odbora održan je 10. prosinca 2002. i na njemu je podržana inicijativa Uredništva da se u povodu obilježavanja 80. obljetnice Geodetskog lista izradi *Bibliografija Geodetskog lista 1991 – 2002*.

U Zagrebu, 15. siječnja 2003.

## Preface

In 1991 the *Bibliography of Geodetski list 1947–1990* was published encompassing everything that was written in *Geodetski list* in that period. It made it possible for readers to find easily everything about a certain topic that was published in the quarterly, or perhaps all titles of individual writers or maybe some specific article written by some author. The Bibliography was edited by N. Frančula, M. Božićnik, N. Vučetić and S. Petrović.

The work on collecting and processing of articles in bibliographic style has been continued by M. Lapaine in digital form. The only new item introduced by him was that along with the year of publishing *Geodetski list*, apart from the pages (from-to) there is also the number of the quarterly in that specific year kept. It has been carried out in the whole bibliography. The sorting of bibliographic items by disciplines has been made by N. Frančula and M. Lapaine.

At the 20th meeting of the Presidency of Croatian Geodetic Society it was decided that the Committee for Anniversaries Organisation in the year 2003 should be constituted – 80 years of *Geodetski list*, 50th anniversary of Croatian Geodetic Societies Association (SDGH), 30th anniversary of the 1st meeting of Croatian geodesists at the Plitvice Lakes, 10 years from the foundation of the Croatian Geodetic Society, and the 10th anniversary of the majority of geodetic associations. The meeting of the Committee for Anniversaries Organisation was held on the 10th December 2002, and the Editorial Board of *Geodetski list* was supported at that meeting in its initiative to make the new *Bibliography* at the occasion of celebrating the 80th anniversary of *Geodetski list*.

In Zagreb, 15th January 2003
