nekim definicijama iz kartografije potkrale su se pogreške, koje bi u sljedećem izdanju trebalo ispraviti.

U svakom slučaju ovaj rječnik zaslužuje preporuku jer daje velik doprinos ne samo geografskoj znanosti i struci nego i svima koji su na bilo koji način povezani s određivanjem, istraživanjem i prikazivanjem prostora i prostornih odnosa.

"*Indocti discant et ament meminisse periti*" ("Neka nauče oni koji ne znaju, a znalcima neka bude drago da se prisjete") A. Pope (1688.-1744.) – epigraf na početku ovog djela.
