

## IZ STRANIH ČASOPISA

### Allgemeine Vermessungs-Nachrichten, Vol.108, No.4, 2001.

- Bezugssystem als Grundlage zur Formulierung eines Verschiebungsmodells. J. Gil. 126.-131.
- Kartendatum-Shiftparameter. M. Spata, H. Frohlich. 132.-133.
- Performing coordinate transformation by artificial neural network. A. Barsi. 134.-137.
- Pilohtafte realisierung des ALKIS/ATKIS Datenmodells zur Abbildung bestehender und zukünftiger Anforderungen der Geodatenhaltung in der Hessischen Kataster- und Vermessungsverwaltung. J. Hartmann, C. Heil, R. Seuss. 138.-149.
- GPS-Begriffe – oft gehört – nun erläutert. D. Meisenheimer. 150.-152.

### Geomatics Info Magazine, Vol.15, No.5, 2001.

- Map Generalisation for On-demand Mapping: Integrating On-the-fly Generalisation with Multiscale Databases. A. Ceconi, R. Weibel. 12.-
- Hazard Mapping in India: Using GIS for Prognostic Himalayan Landslide Modelling. A. Roy. 29.-
- Multi-head Digital Camera Systems: Development and Test of Two Prototypes at IGN, France. C. Thom, J.-P. Souchon. 34.-
- Cadastres in the 21st Century (5): The Greek Cadastre Today. A. Arvanitis. 47.-
- GPS Accuracy Test: Performance in Open Area and Under Forest Canopy. W. Wolniwicz. 56.-
- Performance Analyses of Cadastral Processes: A Case Study of the Process of Parcel Subdivision in Zimbabwe. D.A. Chimhamhiwa, C. Lemmen. 68.-
- Interview – Big Changes Ahead for Geomatics Industry: Interview with Joh Allan, Executive Director, Business Development, ERDAS. M. Lemmens. 6.-
- Pinpoint – Without Title. M. Lemmens. 11.-

### GPS World, Vol.12, No.5, 2001.

- Dead Reckoning Keeps GPS in Line. C. Wood, O. Mace. 14.-
- GPS: The Challenge of a Single Chip. J. Ashjaee. 24.-
- Parting the Waters. T. Soler, R.E. Johnson, L.F. Thormahlen, R.H. Foote. 28.-
- Outfoxing Rabies. P. Hauschildt, R. Tinline, D. Ball. 34.-
- From Time to Time. B. Klepczynski, E. Powers, R. Douglas, P. Fenton. 40.-
- The View from Here: Meeting of the Ways. G. Gibbons. 10.-
- Innovation: Carrier-Phase Cycle Slips. S.B. Bisnath, D. Kim, R.B. Langley. 46.-

### Journal of Geodesy, Vol.74, No.11/12, 2001.

- An improved gravimetric geoid for Japan, JGEOID98, and relationships to marine gravity data. Y. Kuroishi. 745.-755.
- ITRF coordinates and plate velocities from repeated GPS campaigns in Antarctica – an analysis based on different individual solutions. R. Dietrich, R. Dach, G. Engelhardt, J. Ihde, W. Korth, H.-J. Kutterer, K. Lindner, M. Mayer, F. Menge, H. Miller, C. Mueller, W. Niemeier, J. Perlt, M. Pohl, H. Salbach, H.-W. Schenke, T. Schoene, G. Seeber, A. Veit, C. Voelksen. 756.-766.
- Solution of the Dirichlet and Stokes exterior boundary problems for the Earth's ellipsoid. V.V. Brovar, Z.S. Kopeikina, M.V. Pavlova. 767.-772.
- Implementation of multigrad solvers for satellite gravity anomaly recovery. J. Kusche. 773.-782.
- Gravitational attraction of local crustal masses in spherical coordinates. D.A. Smith, D.S. Robertson, D.G. Milbert. 783.-795.
- The effect of downward continuation of gravity anomaly to sea level in Stokes' formula. L.E. Sjoeborg. 796.-804.
- Effect of topographical density on geoid in the Canadian Rocky Mountains. J. Huang, P. Vanicek, S.D. Pagiatakis, W. Brink. 805.-815.

- Two different views of topographical and downward-continuation corrections in the Stokes-Helmert approach to geoid computation. H. Nahavandchi, L.E. Sjoeborg. 816.-822.

#### **Journal of Geophysical Research – Solid Earth Vol.106, No.B5, 2000.**

- Resolution analysis of finite fault source inversion using one- and three-dimensional Green's functions, 1, Strong motions. R.W. Graves, D.J. Wald. 8745.-8766.
- Resolution analysis of finite fault source inversion using one- and three-dimensional Green's functions, 2, Combining seismic and geodetic data. D.J. Wald, R.W. Graves. 8767.-8788.
- Indirect effect of the atmosphere through the oceans on the Earth nutation using the torque approach. O. de Viron, R.M. Ponte, V. Dehant. 8841.-8852.
- Gravity anomalies and crustal structure at the southeast Greenland margin. J. Korenaga, W.S. Holbrook, R.S. Detrick, P.B. Kelemen. 8853.-8870.
- New gravity data in the Arctic Ocean: Comparison of airborne and ERS gravity. V.A. Childers, D.C. McAdoo, J.M. Brozena, S.W. Laxon. 8871.-8886.
- Atmospheric excitation of the Chandler wobble, 1983-1998. Y. Aoyama, I. Naito. 8941.-8954.

#### **Journal of Surveying Engineering, Vol.127, No.2, 2001.**

- Combined Analysis of Real-Time Kinematic GPS Equipment and Its Users for Height Determination. W.E. Featherstone, M.P. Stewart. 31.-51.
- Differential GPS Geometric Rectification of Fine-Resolution Aircraft Scanner Data. J.D. Witter, J.G. Lyon, B.M. Puskas. 52.-58.
- Empirical Method of Error Analysis in Volume Estimation: Monte Carlo Simulation Under Kriging and Triangulation. G. Taylor, A.Y.T. Kudowor, D. Fairbairn. 59.-77.

#### **Surveying and Land Information Systems, Vol.61, No.1, 2001.**

- Model Law. National Council of Examiners for Engineering and Surveying. 5.-23.
- GIS/LIS Addendum to the Report of the Task Force on the NCEES Model Law for Surveying. American Congress on Surveying and Mapping (ACSM), American Society for Civil Engineers – Geomatics Division (ASCE), American Society for Photogrammetry and Remote Sensing (ASPRS), Management Association for Private Photogrammetric Surveyors (MAPPS), National Society of Professional Surveyors (NSPS), National States Geographic Information Council (NSGIC), Urban and Regional Information Systems Association (URISA). 25.-32.
- Surveyors and GIS Professionals Reach Accord. B.A. Joffe. 35.-36.
- The Present Stage of Evolution of the Geographic Information Science Profession. G. Jeffress. 37.-38.
- Coming to Terms with the Model Law: The Search for a Definition of Surveying in New Mexico. G. Thurow, S. Frank. 39.-43.
- The Four-Year Degree – When the Future of a Profession is at Stake. J. Greenfeld. 45.-50.
- The International Federation of Surveyors Commission Seven: Cadastre and Land Management. R.W. Foster. 51.-53.

#### **Zeitschrift fur Vermessungswesen, Vol.126, No.2, 2001.**

- Vorwort zum Schwerpunktheft "Von der Schwerefeldmodellierung bis zur automatischen Bildauswertung: Statistische Datenanalyse". W. Benning. 65.-65.
- Wissensbasierte Analyse von Vermessungsrissen. W. Benning, R. Schindler. 65.-73.
- EOF – Analysen der Meeresspiegel-Schwankungen im Pazifik. W. Bosch. 74.-81.
- Schätzung von Schwellwerten für die automatische Bildauswertung. A. Busch. 82.-87.
- Equivalent Systems for Various Forms of Kriging, Including Least-squares Collocation. B. Schaffrin. 87.-94.
- Wavelet-Analyse von Erdrotationsschwankungen. M. Schmidt. 94.-100.
