

## IZ STRANIH ČASOPISA

**Allgemeine Vermessungs-Nachrichten, Vol.105, No.7, 1998**

- Zur Validierung ganzzahliger Parameterschätzungen. G. Kampmann, B. Krause 217–224
- Identifikation und Kompensation systematischer Sensorfehler im Kalman-Filter. J. Wang, W. Caspary 224–231
- Unterteilung des Ellipsenumfangs in n gleiche Teile. H. Spath 231–233
- Das begleitende Dreibein mit absoluter Orientierung. E. Mittermayer 233–239
- Beiträge zur Geodäsie zur Beschreibung der Zustandsänderung eines deformierbaren Körpers im Nahbereich. D. Ghita 239–247
- Studies of vertical displacements of bridge structures using the method of trigonometrical levelling – in the light of practical experiments. R. Grabowski, A. Kobryn 247–250

**Bollettino di Geodesia e Scienze Affini, Vol.57, No.2, 1998**

- The astronomic and geodetic coordinates of the Telescopio Nazionale Galileo, Canary Island. A. Caporali, C. Barbieri 109–120
- Referencing the Italian National Telescope "Galileo": first determination of the geodetic and astronomical coordinates. Banni, E. Falchi, I. Porceddu, G. Sanna 121–132
- Topography supported total station/GPS positioning. E. Osada 133–140
- Evaluation of the regional gravity anomaly from balloon gradiometry. M.S. Petrovkaya, J.B. Zielinski 141–164
- Tensors and differential geodesy. J.D. Zund 165–180
- La georeferenziazione delle informazioni territoriali. L. Surace 181–236

**Acta Geodetica et Geophysica Hungarica Vol.33, No.1, 1998**

## PROCEEDINGS OF THE INTERNATIONAL BEACON SATELLITE SYMPOSIUM 97, SOPRON, 30 JUNE – 5 JULY, 1997, HUNGARY, PART IITEC VARIATIONS

- Nighttime enhancements in IEC at low latitudes – A study with reference to F region dynamics. D.S.V.V.D. Prasad, P.V.S. Rama Rao, P. Sri Ram, K. Niranjana 3–8
- Solar and magnetic activity control on the VHF ionospheric scintillations at low latitude. S. Kumar, P.K. Purohit, A.K. Gwal 9–18
- Satellite beacon and ionosonde measurements of ionospheric irregularities over India during the equinoctial month of September 1991. P.V.S. Rama Rao, P. Sri Ram, P.T. Jayachandran, D.S.V.V.D. Prasad 19–24
- Time series modelling of intensity and phase scintillation at GPS frequencies. M.A. Cervera, M.F. Knight 25–40
- Spatial characteristics of mid-latitude ionospheric scintillations in VHF radio-satellite transmissions. L.A. Hajkowicz 41–52
- NNSS Latitudinal TEC profiles over Argentina based on NNSS
- Differential Doppler measurements during the period 1994–1996. N. Jakowski, H.-G. Kugland, S. Schluter, V.H. Rios, R. Inzirillo, R. Leitinger 53–60
- Latitude dependent mean ionospheric height – A new approach to the TEC evaluation from NNSS data. R. Leitinger, P. Spalla, L. Ciralo 61–74
- Some results on GPS-NNSS TEC comparison. L. Ciralo, P. Spalla 75–82
- An investigation of the ionosphere in the Southern high latitudes during low sunspot numbers. B.S. Tate, N.M. Shilo, E.A. Essex 83–90
- New NNSS configuration: Problems and adopted solutions. L. Ciralo, P. Spalla 91–96
- GPS-RESULTS Detection of the southern hemisphere main trough, effects of auroral activity and nighttime TEC enhancements with GPS. I. Horvath, E.A. Essex 97–110
- Determination of f<sub>o</sub>F<sub>2</sub> short-term variations from GPS time delay observations. H. Soicher, Z. Houminer 111–120
- Detection of irregularities in the total electron content using GPS measurements – Application to a mid-latitude station. R. Warnant 121–128
- Comments on protonospheric content – ATS-6 revisited. J.K. Hargreaves 129–136
- Protonospheric electron contents from GPS/NNSS observations. N. Lunt, L. Kersley, G. Bishop, A. Mazzella 137–146
- A comparison between the TEC computed using GPS and ionosonde measurements. R. Warnant, J.C. Jodogne 147–

**GPS World, Vol.9, No.9, 1998**

- The View From Here: Persistence of Form. G. Gibbons 10–10
- Washington View: International Control Of GPS? D.A. Divis 12–17
- Context Aware: The Dawn of Sentient Computing? J. Pascoe, N. Ryan, P. Brown 22–30
- Nicaragua's "GPSISTAS": Mapping Their Lands on the Caribbean Coast. P.H. Dana 32–42
- Deep-Sea Geodesy: Monitoring the Ocean Floor. D. Chadwell, F. Spiess, J. Hildebrand, L. Young, G. Purcel, Jr., H. Dragert 44–55
- GPS Groundwork: Building Indonesia's Cadastral Networks. H.Z. Abidin, A. Jones, K. Sarah, R. Anshari 56–62
- A License to Fly: Recording Flights by Students ... and Others. P. Hriljac, D. Roy 64–67
- Ranging Signal Anomalies on GPS Block II Satellites. P. Daly 68–68
- Innovation: RTK GPS. R.B. Langley 70–76

**Journal of Geodesy, Vol.72, No.7/8, 1998**

- Accuracy assessment and refinement of the JGM-2 and JGM-3 gravity fields for radial positioning of ERS-1. P. Moore, S. Ehlers, S. Carnochan 373–384
- On the dynamical effects of an inhomogeneous liquid core in the theory of nutation. S. M. Molodensky, E. Groten 385–403
- The Abel-Poisson kernel and the Abel-Poisson integral in moving tangent space.
- E. W. Grafarend, F. Krumm 404–410
- On some problems of the downward continuation of the 5' x 5' mean Helmert gravity disturbance. W. Sun, P. Vanicek 411–420
- Precise ERS-2 orbit determination using SLR, PRARE, and RA observations. P. H. Andersen, K. Aksnes, H. Skonnord 421–429
- Robust biased estimation and its applications in geodetic adjustments. Q. Gui, J. Zhang 430–435
- Robust Kalman filter for rank deficient observation models. K. R. Koch, Y. Yang 436–441
- Study of a wide-angle laser ranging system for relative positioning of ground-based benchmarks with millimeter accuracy. O. Bock, M. Kasser, C. Thom, J. Pelon 442–459
- Construction of Green's function for the Stokes boundary-value problem with ellipsoidal corrections in the boundary condition. Z. Martinec 460–472
- Using piecewise linear interpolations in spherical harmonic analysis. S. Bian, J. Menz 473–481
- A compendium of transformation formulas useful in GPS work. T. Soler 482–490
- IAG Newsletter. O. B. Andersen 491–497

**Geomatics Info Magazine, Vol.12, No.8, 1998**

- Avoiding Interagency Transfer and Redundant Storage of Data. C. Beattie 7–9
- Industry Taps Image Processing and GIS to Earn Green Certification. R. Kolosvary, K.P. Corbly 27–29
- Tracing Centre-Lines of Water-polygons. A.H.J. Christensen 47–49
- Dynamic Map Integration among Organisations by Internet. F. Tuijnman 69–71
- Photogrammetric Film Scanners: Vendors Glad with Interaction between Academia and Practitioners. 32–33
- Intergraph's Focus Is on Geospatial Information Management and Use: GIM interviews Dr Carl Reed, Vice-President of Infrastructure Marketing, Intergraph Corporation. 50–53
- GDT Brings Geographic Data to Businesses: Comprehensive Databases Provide the Foundation for Business Applications. 60–61
- GIM's Product Survey on Digital Photogrammetric Workstations (rev.). 63–63
- Distributed Web-enabled Tools Ahead: Will Bentley Take the Lead with MicroStation/J? 64–67
- Insider's View – Much Work to Do for OGC. L. McKee 73–73
