

IZ STRANIH ČASOPISA

Bollettino di Geodesia e Scienze Affini, Vol.56, No.4, 1997

- GPS for photogrammetry. F. Ackermann – 387-406
- An essay on the foundations of Gaussian differential geometry II: imbedding questions. J.D. Zund – 407-426
- Via Georgofili: images to remember. A. Arrighi, F. Blasi, A. Di Rita, D. Grazzi, M. Pecci – 427-442
- On expansions of the earth's gravitational potential converging in the whole space. M.S. Petrovskaya – 443-450
- A generalized theory of variance analysis. Q. Liu, T. Parm – 451-462
- Studio della superficie di deformazione di un blocco. B. Crippa – 463-470
- Elementi astronomici per il calendario dell'anno 1998 calcolati dall'Osservatorio Astronomico di Cagliari. A. Poma, E. Simeone – 471-486

Journal of Geodesy, Vol.72, No.1, 1997

- On the internal stability of GPS solutions. Y. Feng, K. Kubik – 1-10
ABSTRACT <<http://link.springer.de/link/service/journals/00190/bibs/7072001/70720001.htm>>
- The spacetime gravitational field of a deformable body. E.W. Grafarend, J. Engels, P. Varga – 11-30
ABSTRACT <<http://link.springer.de/link/service/journals/00190/bibs/7072001/70720011.htm>>
- Local crossover analysis of exactly repeating satellite altimeter data. H. van Gysen, R. Coleman, B. Hirsch – 31-43
ABSTRACT <<http://link.springer.de/link/service/journals/00190/bibs/7072001/70720031.htm>>
- IAG Newsletter. O.B. Andersen – 44-47
ABSTRACT <<http://link.springer.de/link/service/journals/00190/bibs/7072001/70720044.htm>>

Surveying and Land Information Systems, Vol.57, No.4, 1997

SPECIAL CONTENT: U.S. NATIONAL REPORT TO THE INTERNATIONAL FEDERATION OF SURVEYORS (FIG), 1998

- ACSM: Structure, Goals, and Activities. I. Alipui, K. Flynn – 203-214
- SURVEYING AND MAPPING EDUCATION IN THE UNITED STATES
- Surveying Education at Ferris State University. R. Burtch – 215-219
- The Pennsylvania State University Surveying Program. C.D. Ghilani – 220-222
- The University of Florida Geomatics Program. D.W. Gibson – 223-224
- A Geographic Information Science at Texas A&M University-Corpus Christi. G. Jeffress – 225-226
- Blending the Old and the New: The Surveying Program at Michigan Technological University. I. Wijayratne – 227-230
- The Surveying Degree Program at New Mexico State University. S. Frank – 231-232
- A Goal Oriented Approach to Surveying Education. J. Greenfeld – 233-235
- Surveying Education at the Oregon Institute of Technology. J.A. Walker – 236-236
- Appendix: College and University Programs in Surveying in the United States. 237-240

SELECTED PUBLIC SECTOR ACTIVITIES

- The Wisconsin Land Information program: Supporting Community Land Information System Development. D.L. Tulloch, D. Barnes, D. Bartholomew, D. Danielsen, N. von Meyer – 241-248
- A Summary of the Institutional and Technological Status of Public Sector Construction Surveying in the Commonwealth of Massachusetts. C.R. Petersohn – 249-250
- Land Privatization. M.C. Feindt – 251-252

U.S. GOVERNMENT GEOSPATIAL AGENCIES: EVOLUTION

- The Role of the U.S. Geological Survey's National Mapping Division in the Information Age. M.L. DeMulder, W.G. Rohde, J. Donnelly – 253-255
- Federal Government's Needs and Programs for Geographic Information – Excerpted from Appendix E of Geographic Information for the 21st Century". National Academy of Public Administration – 256-260

Allgemeine Vermessungs-Nachrichten, Vol.105, No.3, 1998

- Der dornenreiche Weg zum schlanken Staat. H.P. Goerlich – 85-96
- Effiziente Berechnung von Meridianbogenlängen. H. Kutterer – 96-99
- Die Regressionsgerade bei Winkelmessdaten. H. Spath – 99-101
- Adaptive Wavelets for Multiscale DEM Transformation. Y. Pan – 101-106

Geomatics Info Magazine, Vol.12, No.3, 1998

- From National through European to Global SDI: Interoperability and Spatial Data Infrastructure. P.A. Burrough – 6-9
- OGC and Europe's GI Future: A View from the Other Side. L. McKee – 23-25
- Integration of Hyper-information and GI-systems: Will GIS Become as Simple to Use as a Web Browser? W. Shi, Z. Tang – 27-29
- Customer Orientation and Information Technology: Dutch Cadastre Reformed. P. van der Molen – 32-35
- The Internet and Geoinformation Systems: 'InterGIS' – A Project Initiated by the City of Cologne. B. Jungwirth – 55-57
- Managing Your Data Conversion: How to Prevent Bad Things Happening. D.R. Coates – 61-63
- Improving the Reliability of GIS Databases: Using Quality Control to Create a Multi-source GIS Database. D. Fraser, E. Derenyi – 68-73
- Geospatial Data: The Need to Get Our Act Together. M.J.D. Brand – 77-79
- GIM Interviews Mr Marc Cheves, Editor of 'Professional Surveyor'. – 52-53
- Company's View – GIS for Everyone: PROGIS Shows the Way with 'Software that Shows'. – 65-67
- Insider's View – Automation in GIS Data Collection. J.C. Trinder – 81-81

GPS World, Vol.9, No.3, 1998

- Washington View: Marshaling Forces To Protect Spectrum. D.A. Divis – 14-18
- Black Thunder's Roar: Mining For Solutions With RTK GPS. J.L. Long – 22-28
- What's Good For The Grower: Assessing Goose Damage To Northwest Crops. D.E. Johnson, M.M. Borman, M. Louhaichi, D. Smith, N.R. Harris – 30-36
- A Prehistoric Round-Up: Corraling The Cow Of The Cretaceous. T. Kaye – 38-48
- Running Interference: Testing A Suppression Unit. M.S. Braasch, C.A. Snyder – 50-54
- Innovation: Pseudolites – Enhancing GPS With Ground-Based Transmitters. S. Cobb, M. O'Connor – 55-60

Survey Review, Vol.34, No.267, 1998

- Strategies for the Accurate Determination of Orthometric Heights from GPS. W.E. Featherstone, M.C. Dentith, J.F. Kirby – 278-296
- Effects due to the Constrained Unknowns (Part II). R. Hsu – 297-306
- Back to Basics (9). A.L. Allan – 307-310
- Cadastral Reform: Lessons from a Small Island State. R. Sinon, I.P. Williamson, A. Agumya – 311-329
- Test Range for Calibration and Classification of Geodetic Instruments. N.P. Netto, H. Erwes – 331-342
