

UVODNA RIJEČ UREDNICA

Drage čitateljice i čitatelji,

Ovaj broj časopisa PSIHOTERAPIJA je koncipiran na novi način. Naime, prof. dr. sc. Dolores Britvić je od svog pacijenta dobila priču pod naslovom „Psychosis neurosis“. Pacijent je ispričao kako je on doživio svoj mentalni poremećaj. Upitan bi li dozvolio da i drugi stručnjaci pročitaju njegovu priču, pacijent je odgovorio potvrdno. Prof. dr. sc. Dolores Britvić je nakon toga poslala priču svojim specijalizantima, kolegama suradnicima i grupnim analitičarima. Svi su bili impresionirani i stvorila se grupa koja je uz pristanak pacijenta krenula „asocirati“. Svaki član grupe je imao svoje asocijacije o navedenoj priči koje donosimo u ovom broju. Cilj nam je bio edukativan. Potrebno je prvo pročitati priču pacijenta R.M. i nakon toga možete po izboru birati članke.

ZAHVALA

Zahvaljujemo R.M. -u što nam je dao dio sebe kroz Psychosis neurosis. Zahvaljujemo kolegicama i kolegama koji su tijekom godine dana stvarali ovaj broj

Dear reader,

This issue of the PSYCHOTHERAPY journal is conceived differently than usual. Prof. Dolores Britvić, PhD, received a story from her patient titled *Psychosis Neurosis*. The patient wrote about how he experienced his mental disorder. When asked whether he would allow other experts to read his story, the patient answered yes. After that, prof. Dolores Britvić sent the story to her residents, fellow colleagues, and group analysts. Everyone was impressed and a group was formed which, with the consent of the patient, began with “associations”. Each member of the group had their own associations about the story in question, which we present in this issue. Our goal was educational. The story of the patient R.M. should be read first, before any of the articles.
