

CDC

Marijan Erceg

The screenshot shows the official website of the Centers for Disease Control and Prevention (CDC). The header includes the CDC logo, the Department of Health and Human Services, and links for Home, About CDC, Press Room, Funding, A-Z Index, Centers, Institute & Offices, Training & Employment, and Contact Us. A search bar and a link to the Spanish version (CDC en Español) are also present. The main content area features several promotional boxes: 'Influenza' (Latest information on flu and the vaccine supply), 'Impaired Driving' (Don't drink and drive -- learn more about impaired driving), and 'Winter Weather' (Don't let winter leave you cold...). Below these are sections for 'Healthy Holiday Tips' (Learn how you can stay safe and healthy during the holiday season), 'Programs & Campaigns' (The Surgeon General's Family History Initiative, Speak Up Companion™), and 'Conferences & Events' (2005 National Conference on West Nile Virus in the U.S., 2005 National Injury Prevention and Control Conference). On the left sidebar, there are links for Health & Safety Topics, Publications & Products, and Data & Statistics.

www.cdc.gov portal je CDC-a na kojem se mogu naći korisne informacije i alati potrebni za rad svakog profesionalca javnog zdravstva. Nerijetko se na ovim stranicama mogu pronaći najaktualnije vijesti o pitanjima zdravlja u SAD ali i drugim zemljama svijeta.

Health&Safety Topis omogućava pristup informacijama o pojedinim bolestima i preventivnim mjerama i intervencijama namijenjenim profesionalcima i široj javnosti. Na pristupačan način opisane su aktualne javnozdravstvene teme uvijek popraćene promidžbenim materijalima.

Publications&Products omogućava pristup on.line časopisima Emerging Infectious

Diseases Journal, MMWR i Preventing Chronic Diseases. Osobito je pogodna mogućnost primanja pojedinih publikacija u elektronskom obliku putem e-mail što se može zatražiti upisom na pojedine liste zainteresiranih profesionalaca.

S ovih stranica može se izvršiti slobodni besplatni download programa EpiInfo2000 koji omogućava rad s bazama podataka i epidemiološku analizu korištenjem najnovijih statističkih metoda.

Data&Statistics omogućava pristup podacima koji oslikavaju zdravstveno stanje i potrebe stanovništva SAD-a.
