

INVENTORY OF THE ODESCALCHI PALACE IN ILOK – FAMILY LIBRARY

SUMMARY

The paper will discuss the history and fate of the Odescalchi estate library of Ilok, which, like other libraries of Slavonian noble families after the Second World War, was destined to disappear and be dismantled. The search for the library began in 1966 and continues today in the era

of digitization and processing of museum materials, which makes it easier to track down many lost items.
