

INSTRUCTIONS TO AUTHORS

COLLEGIUM ANTROPOLOGICUM will publish original scientific papers, notes, preliminary communications, reviews and conference papers written in English. In the Appendix the Journal will publish book reviews, obituaries, society news etc.

Original scientific papers report hitherto unpublished results of original research. The acceptance of the paper obliges the author not to publish the same material elsewhere without the permission of the Editorial Board.

Notes (short communications) include reports on shorter but completed research.

Preliminary communications include preliminary results of greater importance requiring rapid publication.

Reviews have to be original, concise, and critical surveys of a current research area in which the author himself is active. In the review the role of the author's contribution in this field in relation to other published reports, as well as his original views should be given.

Conference papers, previously reported at a congress, symposium, or summer school, etc., should be submitted by the Organizing Committee in the form of a complete manuscript of the Proceedings.

The papers should be as brief as clarity permits. In the introduction only the necessary minimum of previous work directly related to the discussed topic should be described. The aim of the research should also be stated in the introduction.

Original scientific papers, notes and reviews are sent to two, and preliminary communications to one reviewer. The reviewers are chosen among scientists active in the specific field covered by the paper. Only favourably rated papers are accepted for publication.

THE FORM OF THE MANUSCRIPT

The speed of publication depends on how closely the manuscript conforms to the rules listed below. Manuscript departing substantially from these rules will be returned to the authors for retyping.
