

# The "Chemistry Eurobachelor"

European Chemistry  
Thematic Network Association

## Get your graduates prepared for "Greater Europe"!

Offer them a really "easily readable and comparable degree" (Bologna Declaration, 1999) by getting your institution a Chemistry Eurobachelor® Label!

The main purpose of the Label

is to promote recognition of first cycle degrees within the 45 countries involved in the Bologna Process and thus to improve mobility and employability prospects for new graduates.

The chemistry Eurobachelor framework is approved by EuCheMS. The Eurobachelor® Label is awarded by the European Chemistry Thematic Network Association and supported by the European Commission under the SOCRATES programme.

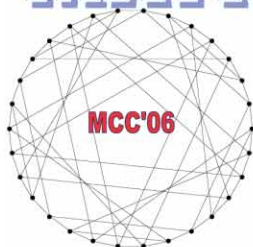

For further information, including a Powerpoint presentation, see [www.eurobachelor.net](http://www.eurobachelor.net) or contact Prof. Terry Mitchell ([Mitchell@eurobachelor.net](mailto:Mitchell@eurobachelor.net)).
