

BONSAI

*P & B Bonsai zbirka mediteranskog drveća /
Bonsai Collection of Mediterranean Tree Species. Katalog / Catalogue.*

Croatian Natural History Museum, Zagreb, 1994, 16 pp. (non pag.),
14 col. photographs (D. Pomykalo), 19,5 × 19,5 cm.

Croatia has a bonsai collection: the P & B Collection of Petar Vrgoč, M.A. with cca 20 single or grouped specimens. Its peculiarity is that the collection is the result of the bonsai cultivation of some autochthonous Mediterranean plants from the Croatian Adriatic region. These are, e.g.: *Carpinus orientalis*, *Fraxinus ornus*, *Pinus nigra*, subsp. *austriaca*, *Prunus mahaleb*. This edition is a catalogue of the exhibition of bonsai cultivated Mediterranean trees which was set up in the Croatian Natural History Museum (2–12 Juni, 1994).
