

Tematska bibliografija / Selective Bibliography

PROMETNO PRAVO / TRANSPORT LAW

ALEKSANDRA ČAR, mag. spec., viša knjižničarka*

Bibliografija u području prometnog prava obuhvaća reference odabranih članaka i radova objavljenih u domaćim i inozemnim znanstvenim i stručnim časopisima, te knjiga i poglavlja u knjigama u izdanju hrvatskih i inozemnih (uglavnom europskih) izdavača.

Bibliografija nije sveobuhvatna, a uključuje odabrane radove i publikacije objavljene od 2010. do 2023. godine na hrvatskom i engleskom, te u manjoj mjeri na francuskom i njemačkom jeziku.

Cilj je ove bibliografije dati pregled domaće i inozemne građe koja se odnosi na transportno pravo, kao i na pojedine njegove grane i područja (cestovni i željeznički promet; osiguranje transportnih rizika; tržišno natjecanje u području transporta; multimodalni prijevoz; te turizam i prava putnika) te time olakšati stručni i znanstveni rad istraživača u području transportnog prava. S obzirom na važnost pomorskog prava kao grane prometnog prava kojom se bavi Jadranski zavod, za idući broj časopisa Pomorsko poredbeno pravo (izdaje 2024.) u pripremi je zasebna opsežna bibliografija posvećena isključivo toj grani prometnog prava.

Unutar tematskih područja reference su razvrstane abecednim redom prema imenu autora, a pri navođenju korištena su pravila za citiranje pravnih izvora OSCOLA (Oxford University Standard for the Citation of Legal Authorities).

This is a list of bibliographic references to selected articles, papers, books and chapters in books in the field of transport law, published in scientific and research journals and other publications by Croatian and foreign (mainly European) publishers from 2010 to 2023. Included are works published in English and Croatian and to a lesser extent in French and German.

The purpose of this bibliography is to facilitate the work of researchers in the field of transport law or within one of its narrower areas such as: road transport; rail transport; insurance of transport risks; competition in the transport sector; multimodal transport; and tourism and passenger rights. Given that maritime law is the main subject of research and scientific interest of the Adriatic Institute, a separate bibliography dedicated exclusively to that
