

K I N E S I O L O G Y

International Journal of Fundamental and Applied Kinesiology

Vol. 55(2023) No.2 (181-392)

Contents

Estibaliz Romarateabala, Markel Urrate, Rodrigo Ramirez-Campillo, Javier Yanci

*(Original scientific paper)***Effects of a mobility and dynamic strength intervention program on the range of motion, strength, and strength asymmetry in people with neck or low back pain 183-191**

Radenko S. Arsenijević, Predrag R. Božić, Milan S. Matić, Bobana B. Berjan Bačvarević, Saša T. Jakovljević, Nemanja R. Pažin

*(Original scientific paper)***Analysis of training load and performance in designing smart bodyweight power training: effects of set structure in vertical jumping sessions 192-201**

Perry Nosek, Matthew Andrew, Mladen Sormaz, Barry Drust, Thomas Brownlee

*(Original scientific paper)***The use of principal component analysis for reduction of training load data in professional soccer 202-212**

Anja Maria Jukić, Fran Žganec Brajša, Danijel Jurakić

*(Original scientific paper)***Is sport and exercise participation related to the environmental and policy factors of physical activity in Croatia? A cross-sectional population-based study 213-221**

Simonè Ferreira, Leon Lategan, Brandon Shaw, Ina Shaw

*(Original scientific paper)***Gender and limb effects on adult normative data for the Biodex Balance System 222-227**

Regis C. Pearson, Alyssa A. Olenick, Nathan T. Jenkins

*(Original scientific paper)***Metabolic response during high-intensity interval exercise and resting vascular and mitochondrial function in CrossFit participants 228-244**

Marcos Antônio Mattos dos Reis, Grégory Hallé Petiot, Marcos Bezerra Almeida

*(Original scientific paper)***Excessive use of the preferred foot in on-the-ball skills execution compromises performance and tactical behaviour of football players 245-253**

Demostenys David da Silva, Ricardo Berton, Gustavo Soares Teixeira, Mateus Henrique Barros, Fernando Reiser, Valmor Tricoli

*(Original scientific paper)***Does the load-velocity relationship predict maximum dynamic strength in power clean from the knee? 254-261**

Darjan Spudić, Ažbe Ribič

(Original scientific paper)

Relationship between unilateral and bilateral countermovement jump performance and force-velocity-power outcome variables 262-269

Ekaitz Dudagoitia Barrio, Julen Fernández-Landa, Yassine Negra,

Rodrigo Ramirez-Campillo, Antonio García de Alcaraz

(Review)

Effects of plyometric jump training on running economy in endurance runners: A systematic review and meta-analysis 270-281

Andrew Naylor, Ariyan Ashkanfar, Xiaoxiao Liu, Russell English

(Original scientific paper)

Knee wraps are detrimental to the maximal squat performance of powerlifters competing in lower weight classes 282-288

Kaja Kastelic, Nejc Šarabon

(Original scientific paper)

Validity and reliability of the Daily Activity Behaviours Questionnaire (DABQ) for the assessment of 24-h movement behaviours among adolescents 289-297

José Rocha Henrique, Rodrigo Ramirez-Campillo, José Afonso, Rui Miguel Silva,

Jason Moran, Filipe Manuel Clemente

(Review)

Plyometric training programs in handball: A systematic scoping review 298-336

Carmen Fernández-Echeverría, Ana Ramos, Isabel Mesquita, María Perla Moreno Arroyo

(Original scientific paper)

How competitive performance data can inform the training process? An action-research study based on the constraint-led approach 337-348

Yılmaz Yüksel, Ali Onur, Ramazan Taşçıoğlu, Erkan Akdoğan, Barış Gürol, İlker Yılmaz

(Original scientific paper)

The effect of maximal aerobic speed training combined with small-sided games on performance parameters in soccer 349-358

Christopher E. Proppe, Paola M. Rivera, David H. Gonzalez-Rojas, John E. Lawson, Ethan C. Hill

(Original scientific paper)

Low-load resistance exercise completed to volitional failure decreases pain perception post-exercise in females and males 359-366

Tijana Radulović, Jelica Petrović

(Original scientific paper)

A two-factor model of perfectionism in sports: relations with personality traits and motivational strategies 367-374

Javier Raya-González, Tomás García-Calvo, Daniel Rojas-Valverde,

Roberto López del Campo, Ricardo Resta, Jesus Diaz-García

(Original scientific paper)

Understanding the impact of hamstring injuries on match performance in Spanish professional soccer players: two full seasons follow-up. 375-382

Guidelines for contributors 383-388

Peer reviewers 389-392
